

Setting the standards for
specialist clinical areas

Healthcare Furniture Colour Chart

Systeméd Colours

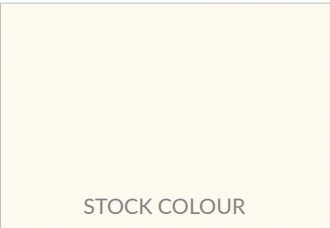

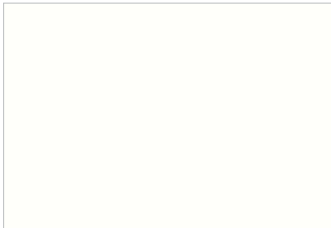

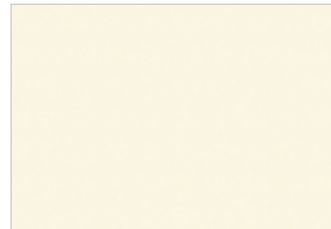

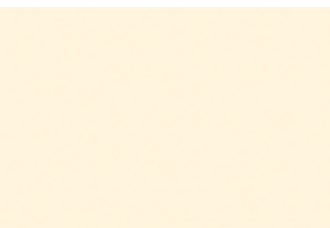

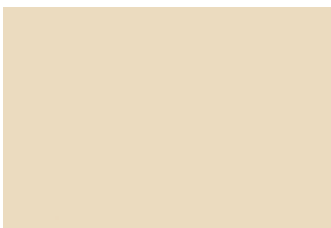

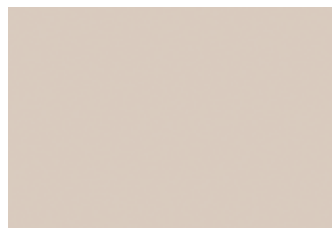

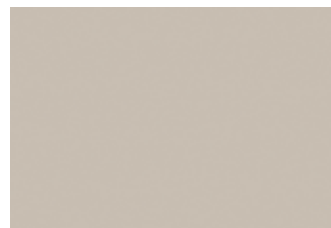

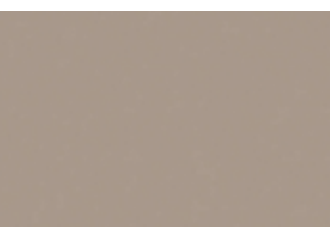

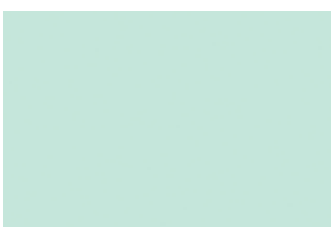

The 2021 range of Systeméd colours shown on the following pages provide a broad range of popular colours for almost every healthcare environment and situation. Many colours are available in Melamine, HP Laminate and Compact Grade materials.

The following symbols shown below the colours represent material availability:

- Available in Systeméd S100 Range, Melamine faced board
- Available in Systeméd S150 Range, HP Laminate faced board
- ▲ Available in Compact Grade material, 12mm thickness

Plain Colours

Popular range of plain colours for cabinets and worktops. Choose one of the two stock colours below for the most economical component price and quickest delivery lead time.

 A-3006 Grey Beige ● ■	 A-4002 Blue Tint ■ ▲	 A-4003 Norway ● ■ ▲	 A-4004 Fresh ■

Plain Colours (continued)

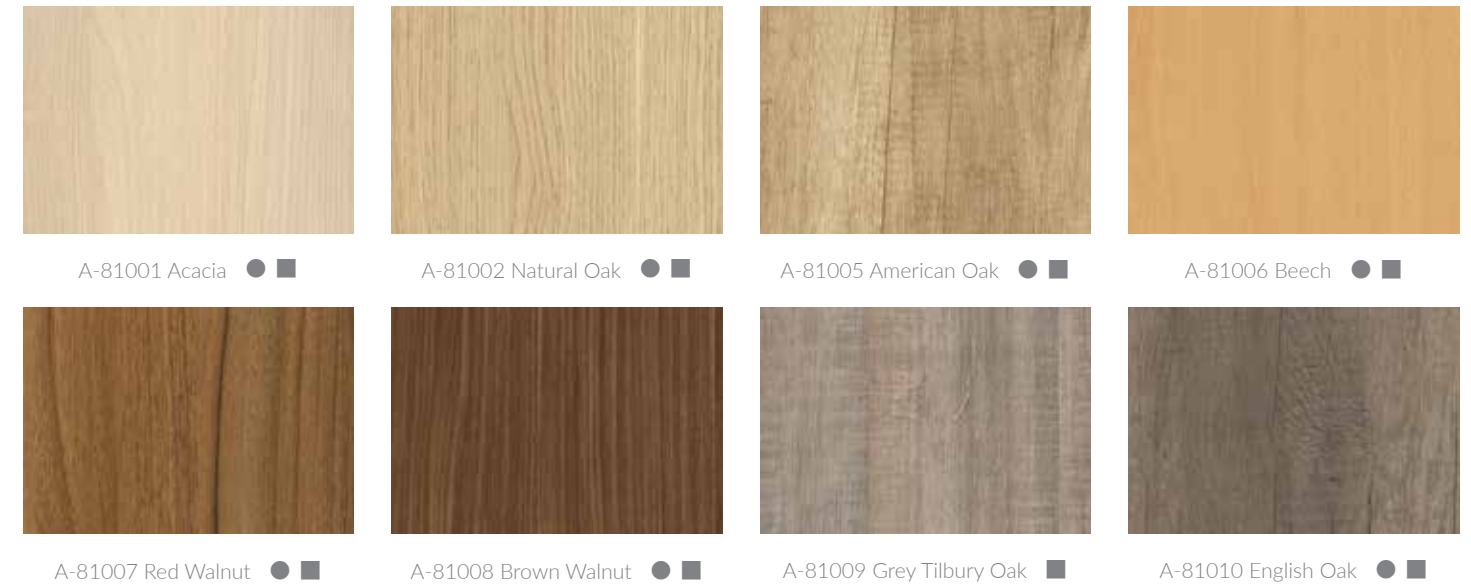

Jump Range Colours

Bold primary colour range for children's ward playrooms and treatment areas.

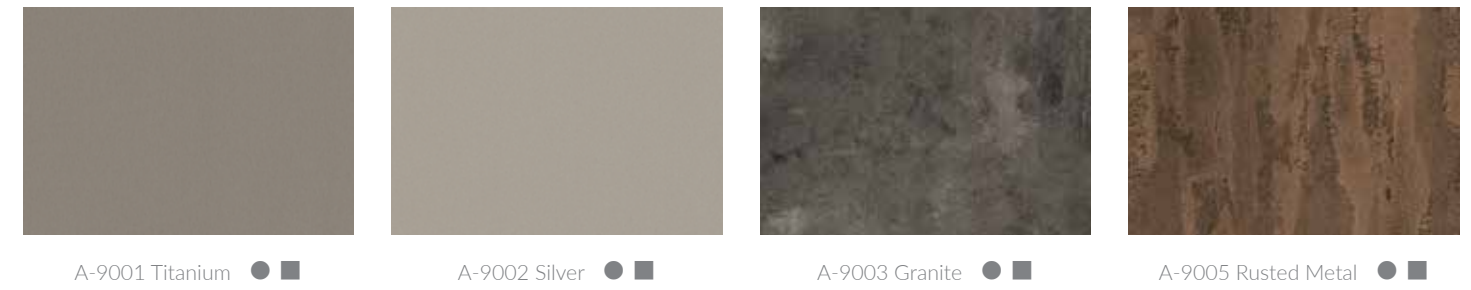

Wood Effect Colours

Dark and light wood colours for traditional and modern effects.

Metal and Effect Colours

Special effect colours suitable for all environments.

Extra Matt Colours

Extra matt colours are treated with a special anti-fingerprint finish. Also available in plain colour and gloss effect finishes.

High Gloss Colours

High gloss colours available in both plain colour and extra matt finish.

Compact Grade Systeméd Colours for IPS Units and Enclosures

Compact grade panels are 12mm thick and suitable for the washroom environment and IPS handwash stations. Most colours are available in HP Laminate finish for a colour coordinated environment.
