Stirling Range

The Stirling range of wall mounted shelving components are from the original Spur shelving system and are manufactured to the same sizes and weight loadings and carry forward the 'steel-lok' mechanism.

**Uprights**

Double slot uprights finished in 'Protecta-cote' hard wearing anti-bacterial coating in White for the most stringent hygienic conditions. Chrome finish uprights and brackets available to order.

Code	Length
SWU24	2400mm
SWU19	1980mm
SWU16	1600mm
SWU12	1220mm
SWU10	1000mm
SWU07	710mm
SWU04	430mm

* Chrome finish available to order

**Brackets**

Adjustable shelving brackets with the 'Steel-lok' mechanism which helps prevent accidental dislodgement from the shelving upright.

Code	Length
SWB61	610mm
SWB57	570mm
SWB47	470mm
SWB37S	370mm
SWB32	320mm
SWB27	270mm
SWB22	220mm
SWB17	170mm
SWB12	120mm

* Chrome finish available to order

**Heavy Duty Brackets**

Heavy duty brackets have a deeper profile and are recommended for heavier loads.

Code	Size
SWHB61	610mm
SWHB47	470mm
SWHB36	365mm

**Strongbeam Type Brackets**

Strong cantilever brackets that fix direct to the wall. Non-adjustable once fixed.

Code	Size
WMB107	100 x 75mm
WMB1512	150 x 125mm
WMB2015	200 x 150mm
WMB2020	200 x 200mm
WMB2525	250 x 250mm
WMB3030	300 x 300mm
WMB3535	350 x 350mm

**Clear Insert Retainers**

Provide additional support for where shelves join in a run over a bracket.

Stirling Range

Spring Rod Bookends

The most popular bookend:- simply clip into the upright to provide a useful shelf end.

Code	Length
WSB250	250mm
WSB200	200mm
WSB150	150mm

Square Bookends

These bookends can be fixed to the shelves where required or just positioned with one side under books to keep upright.

Code	Length
WSPB15	150mm
WSPB20	200mm
WSPB25	250mm

Universal Bookends

These are designed for 15mm shelves and can be positioned anywhere along the shelf length.

Code	Length
WUB150	150mm

Shelf Ends

The shelf end bracket has a return on the bottom edge that will support the shelf so provides both a shelf end and support brackets feature. Useful for creating a pigeon hole effect at different levels.

Code	Length
WSE150	150mm
WSE200	200mm
WSE250	250mm

Steel Shelves

Strong white powder coated shelves that drop into the shelving bracket so very quick to fit. The shelves have an attractive wrap round front profile and small rear upstand. 500 mm lengths available to order.

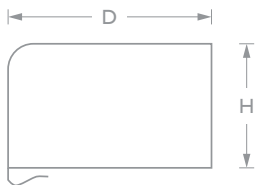

Code	Size
SWSS1022	1000 x 220mm
SWSS1027	1000 x 270mm
SWSS1032	1000 x 320mm
SWSS1037	1000 x 370mm

Foldaway bracket

Light duty foldaway brackets that fix direct to the wall and provide a simple folding shelf. 2 sizes available.

Code	Length
WFB180	180mm
WFB280	280mm

Push on shelf dividers

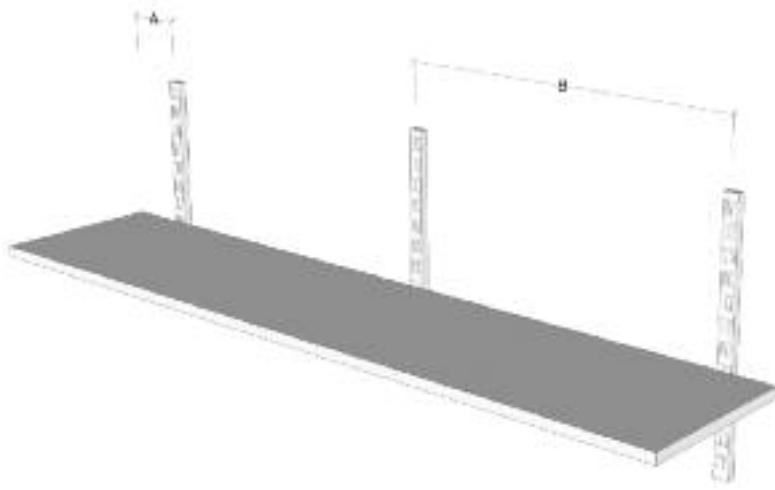

These shelf dividers are designed for 18mm shelves and can be positioned anywhere along the shelf length. They can also be used in Systemed Cabinets.

Code	Size
101101	400D x 250H
101102	400D x 150H
101103	300D x 150H

IN STOCK

Upright spacing

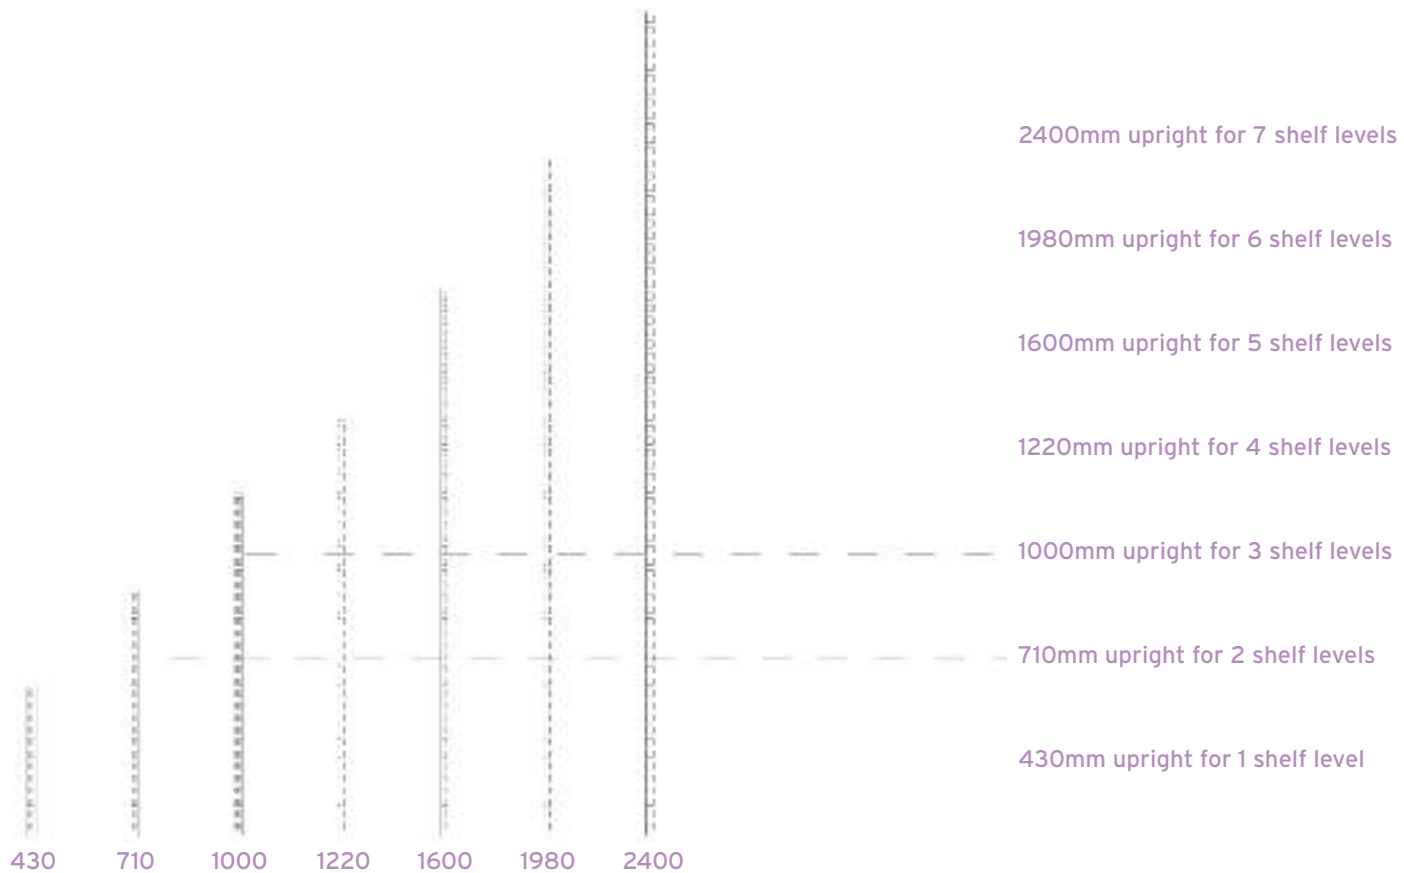

Wall mounted uprights are normally positioned between 50mm - 100mm in from the shelf ends (A) with a maximum recommended spacing of 600mm for 15mm thick boards and 750mm for 18mm thick boards (B).

Upright size guide

Wall uprights are available in 7 different sizes to suit the number of shelves required and shelf pitch. The illustration below gives a guide for typical shelf spacing.

Corresponding Shelf Levels at typical 300mm spacing

Easyrail clinical wall mounted shelving

IN STOCK

Easyrail® clinical shelving

A single shelf storage system suitable for all areas including clean rooms. Easyrail® is a white powder coated aluminium support system free of holes and slots and difficult to clean areas and is ultimately designed for improved infection control.

Easyrail only
