Specialised Equipment and Storage Solutions
for the Medical and Scientific Environment

Welcome

Stirling Medical and Scientific Ltd have worked closely with Department of Health consultants on the Activity Database (ADB) coding to provide all levels of professionals involved in Healthcare Estate design with these robust and up-to-date exemplar room layouts.

The following pages illlustrate layouts for 25 of the most common rooms found in the hospital environment and have been printed from our main Design Folder as a separate section, ready for reference.

Please contact our Sales Office for further information on the complete product range.

UK Sales Manager

Contents

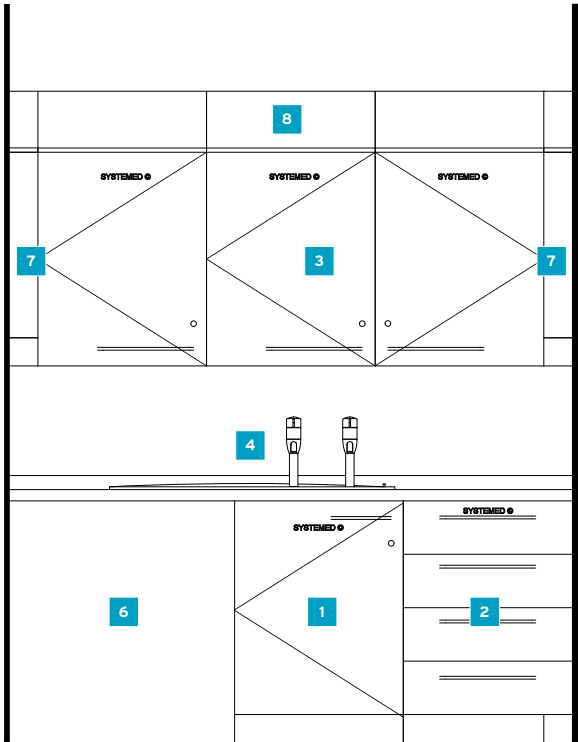

Section 1

Tea Point

Sometimes referred to as a Mini Kitchen, the Tea Point can be conveniently placed in a small alcove in corridor situations or even in large offices. This is simply an area for tea and coffee, along with a sink and fridge.

BEV001 - 2

BEV001 - plan

Key design considerations:

- Under cabinet lighting can be added
- If a dishwasher is required remove one base unit
- A wall cupboard can be adapted to hold a microwave if required
- Use Systeméd S200 range marine ply core for sink base cabinet carcase
- Consider if space for water boiler or vending machine will be required

|	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	CUPBOARD, SR02 Type Base Sink Base Cabinet c/w 1 x Shelf and Removable Back Panel. L/H Door.	CUP0623	B6/SB/LH	B6/SB/LH	Cabinet below the sink should be from S200 Marine ply core for moisture resistance with an access panel to services.
2	CUPBOARD, SR03 Type Base 4 Drawer Base Cabinet.	CUP0634		B6/DW4	Storage for cutlery etc.
3	CUPBOARD, SR04 Type Base 760 High Wall Mounted Cabinet c/w 2 x Shelves. L/H Door.	CUP0641		W6(760)/LH	Wall cabinet storage.
	CUPBOARD, SR04 Type Base 760 High Wall Mounted Cabinet c/w 2 x Shelves. R/H Door.	CUP0642		W6(760)/RH	
4	SINK, Stainless Steel Inset type. Sink Bowl 420W 350D 180H. L/H Drainer, without overflow. 2 Tapholes. 1015W 505D 200H.	SNS0051		SA414311	Use stainless steel inset sink and drainer. If WKT45 Solid Surface worktop is used, the sink can be moulded into the worktop. Check sink type and tap type are compatible with each other.
	TAP, HTM Compliant Deck Mounted Long Lever Action High Neck Pillar Mounted Tap Pair – Hot & Cold set. Thermostatic.	TAP4313		SF404311/12	
5	WORKTOP, 40mm Bullnose High Pressure Laminate. Rear Lay-on Upstand. Size as drawn.	WKT0010		WKT10	Consider WKT30 Solid Grade Laminate or WKT45 Solid Surface worktop styles for wet areas.
6	Space for Fridge.				Allow 650mm wide space for fridge. Always check fridge height will fit under worktop.
7	Fillers to the walls.				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.
8	Sloping Tops to wall cabinets.				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.

Ward Pantry/Staff Kitchen

The Staff Kitchen or Beverage Bay as it is sometimes known, will differ in size depending on the specific activities in the department and whether it will be for staff only or for patient catering as well.

Exemplar Layouts

BEV002 – Ward Pantry/Staff Kitchen

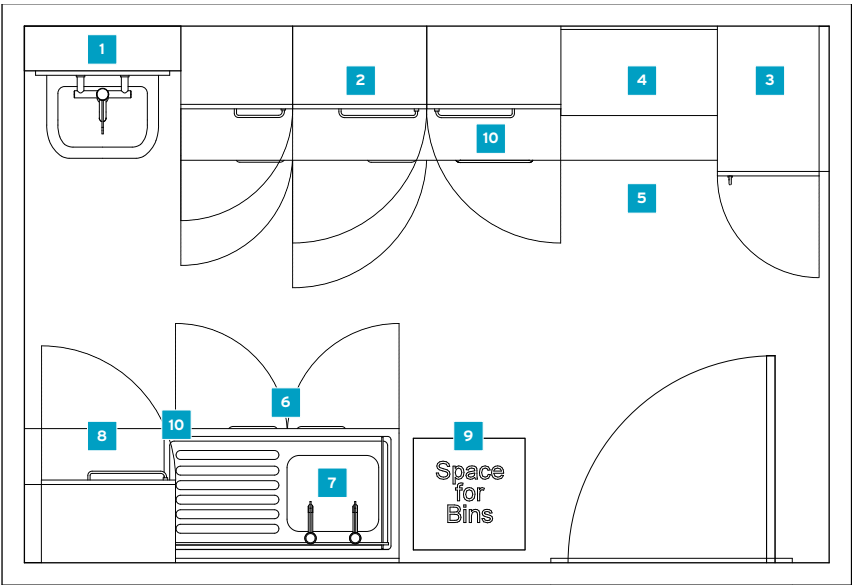

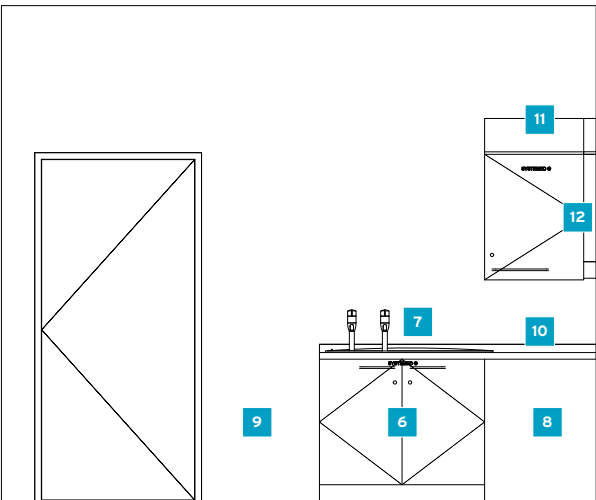

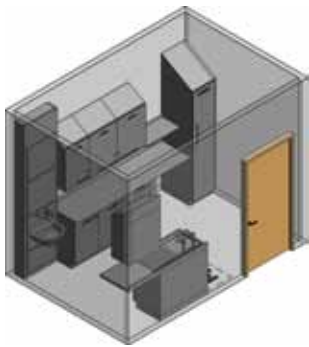

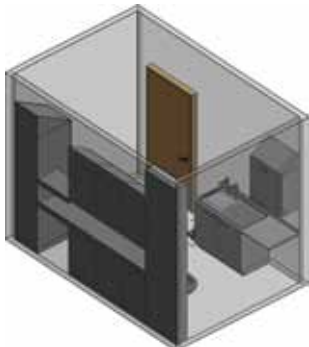

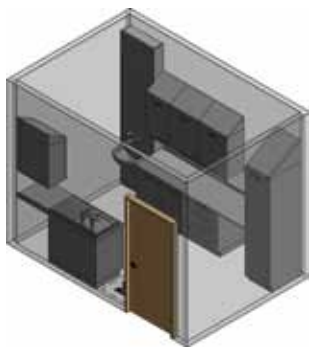

BEV002 - plan

BEV002 - 2

BEV002 - 3

BEV002 - 1

BEV002 - 4

Key design considerations:

- Divide clean and dirty activities to opposite sides of the room: Clean side includes fridge, food preparation worksurface, microwave, handwash and storage for utensils etc. The dirty side includes bins, a sink, dishwasher and minimal worksurface
- Room size will depend on the required activities, number of staff, possible location of a warming trolley for patient meals
- Handwash station can be placed conveniently for cleaning before and after food preparation
- As this is a high humidity area, use Systeméd S200 range marine ply core cabinets for moisture resistance and durability

	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
	Clean side of the room				
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		Handwash Station positioned to the left of the preparation area.
	TAP, HTM Compliant Single Lever Thermostatic Clinical Mixer Tap. IPS Duct Panel Mounting Type.	TAP4555	SF424555		
	IPS Handwash Station, VIRSEAL™ Ultimate Full height 700W 200D. 4no Access Panels.	IPS1000	VIRU/28/07		
2	CUPBOARD, SR02 Type Base Cabinet c/w 1 x Shelf. L/H Door.	CUP0521	B5/LH	B5/LH	General storage. Use drawers for storage of cutlery and smaller items.
	CUPBOARD, SR04 Type 760 High Wall Mounted Cabinet c/w 2 x Shelves. L/H Door.	CUP0541	W5(760)/LH	W5(760)/LH	
	CUPBOARD, SR02 Type Base Cabinet c/w 1 x Shelf. L/H Door.	CUP0621	B6/LH	B6/LH	
	CUPBOARD, SR03 Type 4 Drawer Base Cabinet.	CUP0634	B6/DW4	B6/DW4	
	CUPBOARD, SR04 Type 760 High Wall Mounted Cabinet c/w 2 x Shelves. L/H Door.	CUP0641	W6(760)/LH	W6(760)/LH	
	CUPBOARD, SR04 Type 760 High Wall Mounted Cabinet c/w 2 x Shelves. R/H Door.	CUP0642	W6(760)/RH	W6(760)/RH	
3	STORAGE UNIT, Modular, Tall Cabinet c/w 5 x Shelves. R/H Door, Lock. HTM71.	MSC0442	CE044112	T40/RH	Larger type storage.
4	SHELF, Clinical, single tier. Aluminium Easyrail™ support type system. White MFC. 300D Length as drawn.	SHE0001	ER1000	B60	Shelf for microwave.
5	Space for fridge			T60	Allow 600 to 650mm for a fridge.
	Dirty side of the room				
6	CUPBOARD, SR02 Type Base Sink Base Cabinet c/w 1 x Shelf and Removable Back Panel. Double Doors.	CUP1024	B10/SB/DD	B10/SB/DD	Cabinet below the sink from S200 marine ply core for moisture resistance and with a removable back panel for easy maintenance and access to services
7	SINK, Stainless Steel Inset type. Sink Bowl 420W 350D 180H. R/H Drainer, without overflow. 2 Tapholes. 1015W 505D 200H.	ESP0542	SA414312	B40	Consider if the taps need to be thermostatically controlled.
	TAP, HTM Compliant Deck Mounted Long Lever Action High Neck Piller Mounted Tap Pair - Hot & Cold set. Thermostatic.	TAP4313	SF404311/12	B40	
8	Space for dishwasher.			B40	Allow 650mm for a dishwasher.
9	Space for bins.			B40	
10	WORKTOP, 40mm Bullnose High Pressure Laminate. Rear Lay-on Upstand. Size as drawn.	WKT0010	WKT10	B40	Consider WKT30 Solid Laminate type worktop for resistance to moisture.
11	Sloping Tops to wall cabinets.				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
12	Fillers to the walls.				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.

Catheter Laboratory

Having equipment well organised and in exactly the right place can make the difference between life and death in this important area of the hospital. The Systeméd components used in this layout have been designed with professional help from consultants to make this room as efficient as possible.

CAT001 - plan

CAT001 - 1

Control Room Window

CAT001 - 3

CAT001 - 2

CAT001 - 4

Framed Glass Doors

Key design considerations:

- The room layout will be affected mainly by position and size of floor or ceiling mounted equipment and monitors, control room window, access doors (including possible access to maintenance room) and whether there is a separate catheter store room
- The volume and type of catheters stored in the room will indicate the type of catheter holders used and quantity of cabinets required
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape
- Many clients choose Systeméd Toughened glass doors to assist with quicker stock identification and retrieval

|	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		Handwash station positioned near the preparation space.

TRO3000	306100ACL		Mobile trolley can park in a trolley bay below the worktop – out of the way. HTM71 inserts can be tranferred between trolley and cabinets.
7	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn.	WKT0030	WKT30		Solid grade laminate style worktop for durability and infection prevention.
8	STORAGE UNIT, Wall Mounted Drugs Cabinet c/w 2 x Shelves, C.D.Safe and High Security Lock. L/H Door. HTM71.	STF7561	DR756311	W60/ 30(760)/LH	Drug Storage with a controlled drug inner safe.
9	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves and Swing Glide™ Drawer. L/H Door, Lock. HTM71.	MSC2541	CE254311	W40/30/SG/LH	Wall storage for consumables. Swing Glide™ drawers help to keep the worktop clear.
	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves and Swing Glide™ Drawer. R/H Door, Lock. HTM71.	MSC2542	CE254312	W40/30/SG/RH	
10	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. R/H Door, Lock. HTM71.	MSC4762	CE476312	W60/ 30(760)/RH	Wall cabinet storage.
11	TROLLEY, Procedure Trolley. 5-Drawer, Lockable Medical Castors. Central Key Lock. Sliding Table Top extension. 690W 540D 1010H.	TRO1500	LX34PRO		Trolley with consumable to support minor procedures.
12	SHELF, Clinical, single tier. Aluminium Easyrail™ support type system. White MFC. 300D Length as drawn.	SHE0001			Clinical shelves – useful for small equipment that needs to be kept on charge.
13	Space for Fridge.				Space for wall mounted fridge.
14	TROLLEY, Dressing/Instrument Stainless Steel - Buffered, 2 Levels 450W 450D 840H.	TRO4000	SSS4545		Trolleys to support minor procedures.
	TROLLEY, Dressing/Instrument Stainless Steel - Buffered, 2 Levels 900W 450D 840H.	TRO4500	SSS9045		
15	Fillers to the walls.				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.
16	Sloping Tops to wall cabinets.				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
	Consultant space				
17	WORKTOP, 40mm Bullnose High Pressure Laminate. Rear Lay-on Upstand. Size as drawn.	WKT0010	WKT10		Fixed desktop for infection control. Consultant desk - should be 1400 to 1600mm wide.
18	STORAGE UNIT, Lower Base, 2 Drawer, HTM71.	MSC1422	L40/DW2	L40/DW2	Fixed pedestal unit for infection control.
19	CHAIR, Operator Type, Future™ Tiverton T551, High Back, 5 Star base with Castors. No Arms.	CHA0300	CHA11001		Consultant chair position should be between the patient and the door for staff safety.
20	SHELF, Clinical, single tier. Aluminium Easyrail™ support type system. White MFC. 300D Length as drawn.	SHE0001			Clinical shelves for books etc.

Treatment/Examination Room

This type of Treament or Examination Room includes double-sided patient access and space for a patient treatment couch or chair.Typical size: 21m². Provides for patient examination and minor procedures. Storage and preparation worktop is close at hand with provision for controlled drug storage.

CON004 - plan
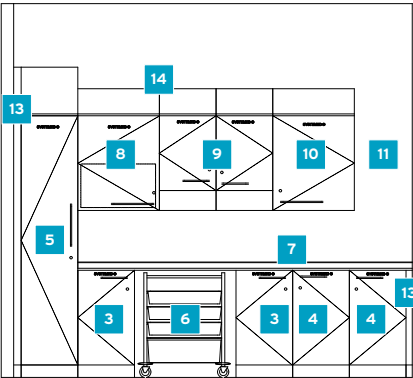

CON004 - 1

CON004 - 2

CON004 - 3

CON004 - 4

Key design considerations:

- Type of treatment will dictate the room size and layout
- Consider using storage trays and baskets for individual procedures types
- Use Swing Glide™ drawers to keep the worktops clear
- Consider BED1350 Hilton Medical Supply Unit near the patient couch for gasses and power to the bedhead
- Use Easyrail clinical shelving with no holes or slots for improved infection prevention
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

Emergency Department :
Resuscitation Room (3 bays)

The Emergency Department Resuscitation room is a critical area of the hospital where items need to be stored efficiently. Systeméd components have proven themselves in this demanding environment where every second counts. A well designed room can ensure that all necessary items are stored close at hand and help save lives.

Exemplar Layouts

EME001 - plan

EME001 - 1

EME001 - 2

Key design considerations:

- A central work area with preparation surface can provide for items such as warming cabinets, fridges, controlled drug and medicine storage, forms, equipment on charge etc
- Include storage space for trolleys
- Each treatment bay has identical storage with a small preparation worksurface. Tall CE02 (MSC0262) cabinet will provide baskets for procedures – one basket per procedure
- Consider one treatment bay to have a double set of storage – for paediatrics treatment
- Clear labelling to help with stock identification is important

EME001 – Emergency Department : Resuscitation Room (3 bays)

Pathology Laboratory

The hospital Pathology Lab can often be overlooked in importance with staff working long and hard and often in cramped conditions which do not conform to current containment standards. Systeméd components will greatly assist in bringing new standards to this area.

MEDICAL and SCIENTIFIC

T: 020 8699 8993

E: enquiries@stirlingmedical.org

www.stirlingmedical.org
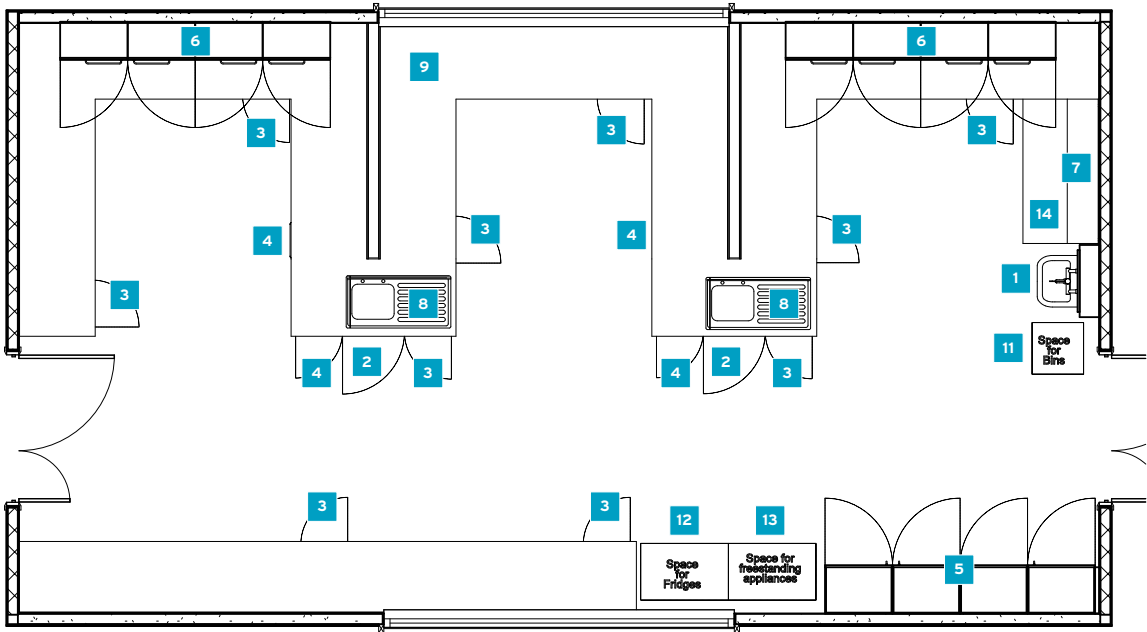

PAT001 - plan
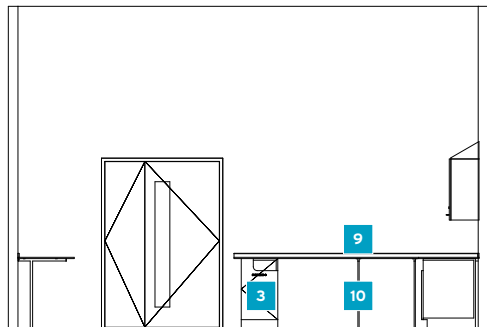

PAT001 - 1
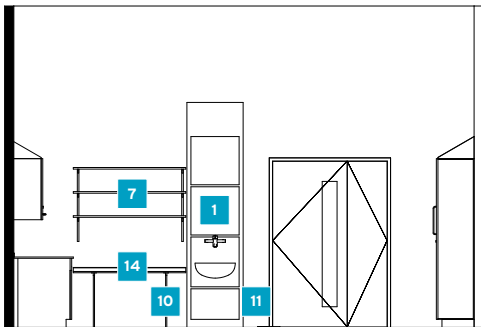

PAT001 - 3
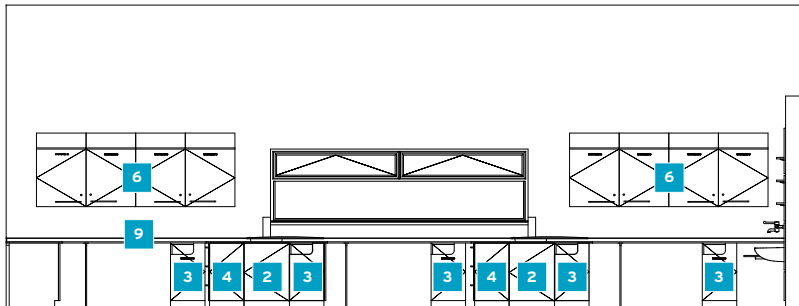

PAT001 - 2

PAT001 - 4

Key design considerations:

- Type of activity, number of staff, type of machinery and storage will dictate the shape and size of this room
- Peninsular style layout helps to minimise circulation space and maximise worktop area
- Under bench support legs can be from the Systeméd island framework system if greater rigity is required
- Consider the quantity and type of sinks required early in the design process. Usually grade 316 stainless steel is used for lab sinks
- 19mm Trespa toplab worktops offer higher grade chemical resistance
- Consider Systeméd mobile base units to provide flexible storage below the worktop
- Peninsular walls can provide a suitable fixing point for worktop supports, services above and below the worktop
- Provision may be required for heavy equipment (e.g. centrifuges) with additional support legs or front worktop support bars
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

|	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		Handwash station positioned near the door.
	TAP, HTM Compliant Single Lever Thermostatic Clinical Mixer Tap. IPS Duct Panel Mounting Type.	TAP4555	SF424555		
	IPS Handwash Station, VIRSEAL™ Ultimate Full height 700W 200D. 4no Access Panels.	IPS1000	VIRU/28/07		
2	CUPBOARD, SR02 Type Base Sink Base Cabinet c/w 1 x Shelf and Removable Back Panel. L/H Door.	CUP0623	B6/SB/LH	B6/SB/LH	Sink Base cabinet from S200 marine ply core for moisture resistance. Removable panel for access to services.
3	STORAGE UNIT, Modular, Harley Bin Unit. Internal Wire Bin Basket. L/H Shaped Door. HTM71.	ESP0541	ES054111	B40/LH	Harley Bin units placed as required.
	STORAGE UNIT, Modular, Harley Bin Unit. Internal Wire Bin Basket. R/H Shaped Door. HTM71.	ESP0542	ES054112	B40/RH	
4	STORAGE UNIT, 3 Drawer Base Cabinet. HTM71.	MSC1443	CE144103	B40/DW3	Range of base cabinet storage will depend on activities and items requiring storage. Consider the base cabinets to have mobile castors to allow for flexibility of storage.
	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. L/H Door, Lock. HTM71.	MSC1341	CE134111	B40/LH	
5	STORAGE UNIT, Modular, Tall Cabinet c/w 4 x 100mm Polycarbonate Trays, 6 x 100mm ABS Baskets, 2 x 200mm ABS Baskets and Label Holders. R/H Door, Lock. HTM71.	MSC0162	CE016112	T60/RH	A mixture of shelf-type and basket insert are considered good practice to allow for flexibility of storage (glassware, small equipment etc). Choose T60 or T40 module to suit room size and available space.
	STORAGE UNIT, Modular, Tall Cabinet c/w 5 x Shelves. L/H Door, Lock. HTM71.	MSC0461	CE046111	T60/RH	
6	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. L/H Door, Lock. HTM71.	MSC4761	CE476311	W60/30(760)/LH	Wall storage
	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. R/H Door, Lock. HTM71.	MSC4762	CE476312	W60/30(760)/RH	
7	SHELF 3-Tier, 300D. Includes Stirling Spur Uprights & Brackets. Length as plan.	SHE3000			Shelves for reference books etc.
8	SINK, Stainless Steel Inset type. Sink Bowl 420W 350D 180H. R/H Drainer, without overflow. 2 Tapholes. 1015W 505D 200H.	SNS0052	SA414312 Grade316		Sinks should be from grade 316 stainless steel for chemical resistance.
9	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn. Stirling medical type WKT30.	WKT0030	WKT30		Worktops should be solid grade laminate (consult with Stirling Medical as to the correct type for best chemical resistance, eg: TopLab, Chemtop etc). It si good practice for external corners of the worktops to have a small radius. 700-750mm deep worktops allows for most common types of equipment.
10	WORKTOP Support, Cantilever Worktop Support Leg for 720mm High Worktop.	WKT4003	CL/720/600		Cantilever style worktop support legs effectively support the worktop while not becoming an obstacle. Consider Stirling's support framework system where there are no wall fixings. Normal standing worktop height is 900mm high.
	WORKTOP Support, Cantilever Worktop Support Leg for 900mm High Worktop.	WKT4004	CL/900/600		
11	Space for bins	SPA900			
12	Space for Fridges	SPA903			
13	Space for freestanding appliances.	SPA904			
14	Sitting space/PC space				

Pharmacy Dispensary Room

The Pharmacy Dispensary could be described as the nerve centre of a hospital and needs to be functional and efficient with clear workflows. Larger hospital improvements to the pharmacy will often include the installation of a robot and planning will be needed to create benching and cabinets to help maximise the benefits available.

PHA001 - plan

PHA001 - 1

PHA001 - 3

PHA001 - 2

PHA001 - 4

PHA001 - 5

Key design considerations:

- Pharmacy layout needs to complement pharmacy procedures including space for stock in, dispensing, checking and stock out
- Enough workspace is required for dispensing computer workstations
- Enough workspace is required for dispensing checking workstations
- Consider colour options to help create a pleasant working atmosphere
- Worktop colours should not reflect glare from ceiling lights – consider a light grey worktop finish
- Space will be required for pharmacy fridges
- Space may be required for a POD delivery system
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

|	Description	ADB Code	Product Code	Cascass DS1 Code	Design Notes
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		Handwash station positioned near the exit door
	TAP, HTM Compliant Single Lever Thermostatic Clinical Mixer Tap. IPS Duct Panel Mounting Type.	TAP4555	SF424555		
	IPS Handwash Station, VIRSEAL™ Ultimate Full height 700W 200D. 4no Access Panels.	IPS1000	VIRU/28/07		
2	STORAGE UNIT, Modular, Tall Open Cabinet c/w 5 x Shelves. HTM71.	MSC0460	CE046100	T60/O	Tall cabinets used as pigeon holes for medicine bags and returns.
3	STORAGE UNIT, Modular, Tall Open Esplan Pharmacy Cabinet c/w 5 x Telescopic Shelves, 3 x Sloping Shelves, Dividers and Label Holder System. HTM71.	ESP0110	ES011100	T100/40	Pharmacy storage for medicines. Note: When a pharmacy robot is installed, these cabinets usually store the medicines that cannot be stored in the robot.
	Dispensary Checking Workstations				
4	STORAGE UNIT, Modular, Harley Bin Unit. Internal Wire Bin Basket. R/H Shaped Door. HTM71.	ESP0562	ES056112	B60/LH	8x Dispensary checking workstations shown in this plan. Each workstation has open CE13 storage, Lockable DRO8 storage and an integral Harley Bin Unit. Positioned in an island layout. Worktop height should be standing height of 900mm high. Consider a worktop finish that does not reflect glare, eg: light grey. Consider WKT30 solid grade worktops with rounded corners.
	STORAGE UNIT, Modular, Base Drugs Cabinet c/w 4 x telescopic polycarbonate trays. L/H Door and High Security Lock. HTM71.	STF0861	DR086111	B60/LH	
	STORAGE UNIT, Modular, Open Fronted Base Cabinet c/w 1 x Shelf. HTM71.	MSC1360	CE136100	B60/O	
	WORKTOP, 40mm Bullnose High Pressure Laminate. No rear Upstand. Size as drawn.	WKT0005	WKT05		
	Medicine Preparation Area				
5	CUPBOARD, SR02 Type Base Sink Base Cabinet c/w 1 x Shelf and Removable Back Panel. Double Doors.	CUP1024	B10/SB/DD	B10/SB/DD	The medicine preparation area is divided into a wet and a dry section: Wet section includes a sink and drainer with an intergral Harley Bin Unit and storage under the worktop. Tall cabinets form a divider and storage for preparation consumables. Dry section includes storage below the worktop with controlled drug storage above (consider where the controlled drugs are stored). Consider open fronted cabinets for quick access to items below the worktop.
	STORAGE UNIT, Modular, Harley Bin Unit. Internal Wire Bin Basket. R/H Shaped Door. HTM71.	ESP0542	ES054112	B40/RH	
	STORAGE UNIT, Modular, Base Cabinet c/w 1 x 100mm Polycarbonate Tray, 3 x 100mm ABS Baskets, 1 x 200mm ABS Basket and Label Holders. L/H Door, Lock.	MSC1141	CE114111	B40/LH	
	STORAGE UNIT, Modular, Base Cabinet c/w 1 x 100mm Polycarbonate Tray, 3 x 100mm ABS Baskets, 1 x 200mm ABS Basket and Label Holders. R/H Door, Lock. HTM71.	MSC1142	CE114112	B40/RH	
	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. L/H Door, Lock. HTM71.	MSC1341	CE134111	B40/LH	
	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. R/H Door, Lock. HTM71.	MSC1342	CE134112	B40/RH	
	SHELF, Clinical, single tier. Aluminium Easyrail™ support type system. White MFC. 300D Length as drawn.	SHE0001	ER1000		
	SINK, Stainless Steel Inset type. Sink Bowl 420W 350D 180H. R/H Drainer, without overflow. 2 Tapholes. 1015W 505D 200H.	SNS0052	SA414312		
	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn.	WKT0030	WKT30		
6	STORAGE UNIT, for Controlled Drugs. Wall Mounted Steel Safe c/w Shelf and Auxillary Alarm Switch. Drugs Lock. L/H Door. 600W 300D 600H.	STF0631	DR066311		
	STORAGE UNIT, for Controlled Drugs. Wall Mounted Steel Safe c/w Shelf and Auxillary Alarm Switch. Drugs Lock. R/H Door. 600W 300D 600H.	STF0632	DR066312		
	Dispensing Computer Workstations				
7	WORKTOP, 40mm Bullnose High Pressure Laminate. Rear Lay-on Upstand. Size as drawn.	WKT0010	WKT10		Worktop 900mm deep at a standard sitting height of 720mm high. Cantilever worktop support legs to keep the knee space free from obstacles. When a pharmacy robot is installed, the dispensing conveyor can be placed on this worktop as well.
	WORKTOP Support, Cantilever Worktop Support Leg for 720mm High Worktop.	WKT4003	CL/720/600		
	CHAIR, Operator Type, Future™ Tiverton T551A, High Back, 5 Star base with Castors. With Arms.	CHA0301	CHA1002		
8	Sloping Tops to wall cabinets				Prevents items being stored on top of cabinets and creates a visible surface for infection prevention.
9	Fillers to the walls				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.
10	Space for POD System (if applicable)				
11	Space for Pharmacy Fridges				Allow 650mm width per fridge

Pharmacy Store

The Pharmacy Bulk Store for an acute hospital should provide storage for all shapes and sizes of items, from pallets to medicine bottles. The Systeméd storage cabinets provide a flexible storage system for changing requirements and allows items to be clearly visible.
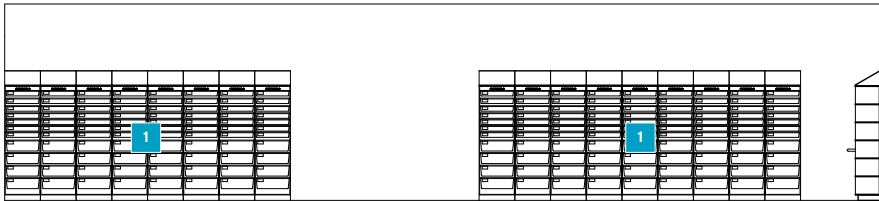

Stirling®
MEDICAL and SCIENTIFIC

PHA002 - plan

PHA002 - 1

PHA002 - 2

PHA002 - 3

PHA002 - 4

Key design considerations:

- A pharmacy robot will significantly impact on the flow of items in this area and dictate the layout
- Consider if pallet and bulk racking is to be used
- Workstations for checking and unpacking should be split level: 900H for standing, 720H for sitting
- If floor space is limited consider Slide-A-Side racking systems to increase stock holding capacity. Contact Stirling for more information
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

	Description	ADB Code	Product Code	Cascass DS1 Code	Design Notes
1	STORAGE UNIT, Modular, Tall Open Cabinet c/w 7 x 100mm ABS Baskets, 4 x 200mm ABS Baskets and Label Holders. HTM71.	MSC0260	CE026100	T60/O	Tall Systeméd cabinets give the complete flexibility to store all sizes of items and have a range of inserts, shelves, deep or shallow baskets etc. Here we have included a mix of CE02 and CE04 type cabinets, but the final range of inserts can be agreed in consultation with Stirling Medical Ltd. Sloping tops may not be required in this area.
	STORAGE UNIT, Modular, Tall Open Cabinet c/w 5 x Shelves. HTM71.	MSC0460	CE046100	T60/O	
2	STORAGE UNIT, Modular, Harley Bin Unit. Internal Wire Bin Basket. L/H Shaped Door. HTM71.	ESP0541	ES054111	B40/LH	Harley bin units placed as required.
	STORAGE UNIT, Modular, Harley Bin Unit. Internal Wire Bin Basket. R/H Shaped Door. HTM71.	ESP0542	ES054112	B40/RH	
3	STORAGE UNIT, Lower Base, 2 Drawer, HTM71.	MSC1422	L40/DW2	L40/DW2	Lower drawer storage.
4	WORKTOP, 40mm Bullnose High Pressure Laminate. Rear Lay-on Upstand. Size as drawn.	WKT0010			Worktops from solid grade laminate with rounded external corners. Consider downgrading to WKT10 type worktops if required. Normal worktop heights for standing activities is 900mm and for sitting activities is 720mm high.
5	WORKTOP Support, Cantilever Worktop Support Leg for 720mm High Worktop.	WKT4003			Cantilever style supports effectively supports the worktops and remains out of the way.
	WORKTOP Support, Cantilever Worktop Support Leg for 900mm High Worktop.	WKT4004			
6	SHELF, Clinical, single tier. Aluminium Easyrail™ support type system. White MFC. 300D Length as drawn.	SHE0001			Shelf.
7	CHAIR, Operator Type, Future™ Tiverton T551A, High Back, 5 Star base with Castors. With Arms.	CHA0301			Operator Chair
8	Access to Pharmacy Robot	SPA906			Pharmacy robot area usually extends through to the dispensary.
9	Space for Bulk Longspan Racking	SPA907			Racking for packaged items and bulky items
10	Space for Bulk Pallet Racking	SPA908			Racking for pallets – depends on ceiling height available and loading bay or equipment provision. Useful for pallets of fluids and bulky items.

Anaesthetic Room

Anaesthetic rooms are a vital part of the hospital theatre department and it is important to design this room with the theatre staff to allow for exisiting workflows and to provide for any improvements. Space to move around the patient and to access necessary drugs and equipment can be quite difficult with the number of persons in the room during a procedure, so efficient storage systems are essential. A well ordered layout will inspire confidence and reduce anxiety.

Stirling®
MEDICAL and SCIENTIFIC

T: 020 8699 8993

E: enquiries@stirlingmedical.org

www.stirlingmedical.org
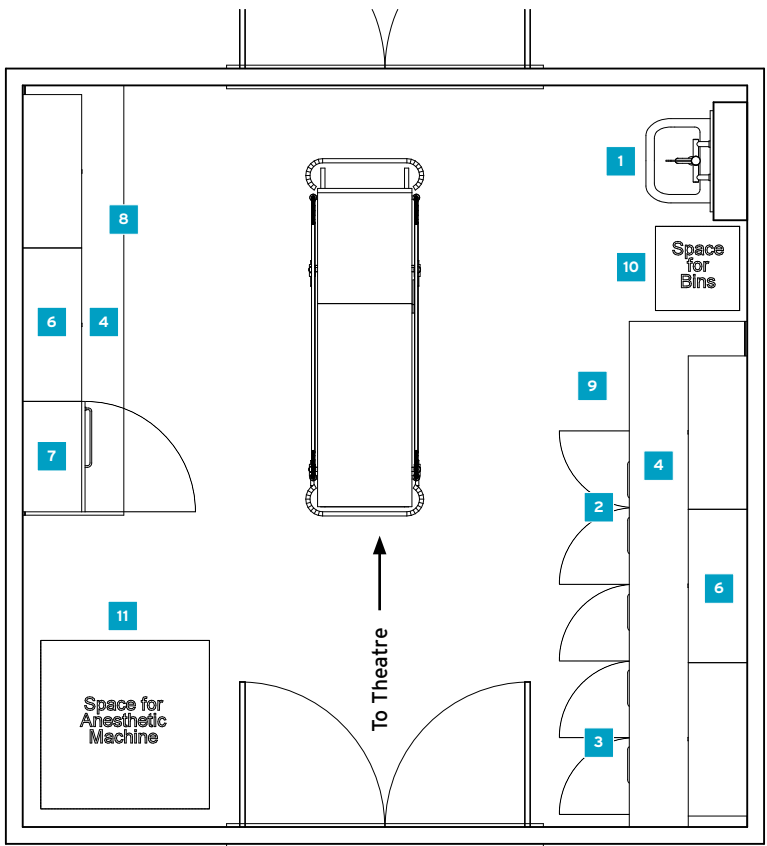

THE001 - plan
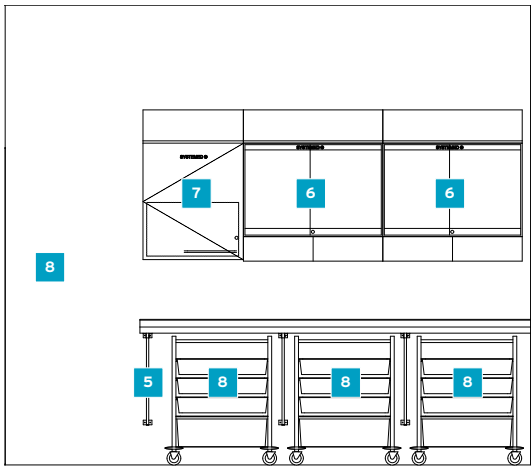

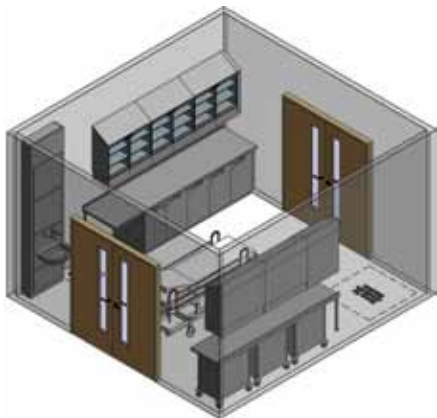

THE001 - 1
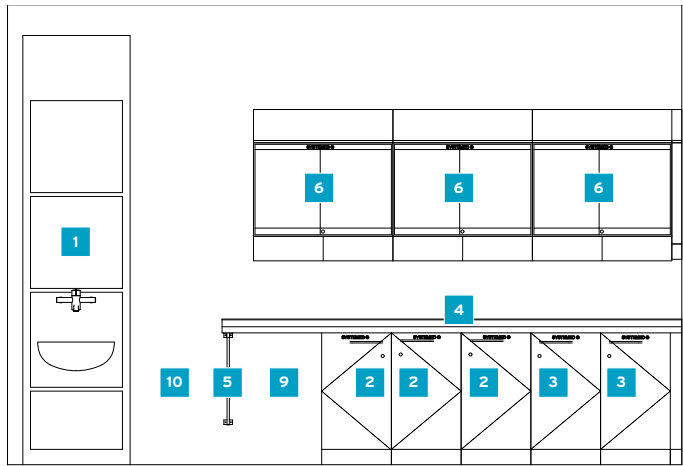

THE001 - 3

Key design considerations:

- Use a solid type of worksurface such as Trespa (WKT30) or Corian (WKT40) to reduce infection issues
- Below worktops storage: consider fixed cabinetry one side and Systeméd trolleys the other side
- For above worktop storage use DR10 type cabinets with lockable clear sliding doors so that items can quickly be identified
- Swing Glide™ drop down drawers below the wall units will ensure the worktop is kept clear
- Allow space for anaesthetic equipment
- Be aware of the position of low and high level air vents
- Consider the fridge position – usually below worktop
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

|	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		Handwash station positioned near the preparation space.
	TAP, HTM Compliant Single Lever Thermostatic Clinical Mixer Tap. IPS Duct Panel Mounting Type.	TAP4555	SF424555		
	IPS Handwash Station, VIRSEAL™ Ultimate Full height 700W 200D. 4no Access Panels.	IPS1000	VIRU/28/07		
2	STORAGE UNIT, Modular, Base Cabinet c/w 1 x 100mm Polycarbonate Tray, 3 x 100mm ABS Baskets, 1 x 200mm ABS Basket and Label Holders. L/H Door, Lock. HTM71.	MSC1141	CE114111	B40/LH	CE11 type storage with tray and basket inserts for consumables.
	STORAGE UNIT, Modular, Base Cabinet c/w 1 x 100mm Polycarbonate Tray, 3 x 100mm ABS Baskets, 1 x 200mm ABS Basket and Label Holders. R/H Door, Lock. HTM71.	MSC1142	CE114112	B40/RH	
3	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. R/H Door, Lock. HTM71.	MSC1342	CE134112	B40/RH	These units have 1no shelf in each – can be used for bulky items or upgraded to accept trays and baskets.
4	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn. Stirling medical type WKT30.	WKT0030	WKT30		Solid grade laminate worktops for infection prevention and durability.
5	WORKTOP Support, Cantilever Worktop Support Bracket, 750H x600D.	WKT4005	CB/750/600		Theatre style cantilever legs are designed to support the worktops and keep out of the way to allow trolleys under the worktops.
6	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves and 2no. Swing Glide™ Drawers. Lockable Sliding Glass Doors. 910W 350D 760H.	STF2023	DR209323	W90/30/SG	These units store medicines. Clear lockable sliding doors help visual identification and prevents hinged type doors becoming an obstruction. Swing Glide drop-down drawers help to keep the worktops clear.
7	STORAGE UNIT, Wall Mounted Drugs Cabinet c/w 2 x Shelves, C.D.Safe and High Security Lock. L/H Door. HTM71.	STF7561	DR756311	W60/ 30(760)/LH	Storage for drugs with a controlled drug inner safe.
8	TROLLEY, Systeméd One Section Multipurpose. HTM71 Compliant. Includes 1no. ABS top, 3no.100mm ABS baskets, 1no. 200mm ABS baskets, 4no. Label Holders. Open Front, Closed sides.	TRO3000	306100ACL		Trolleys with trays and baskets which can be moved closer to the patient trolley when in use. Choose Systeméd trolleys to suit worktop height.
9	Space for Drugs Fridge				
10	Space for bins	SPA900			
11	Space for Anesthetic Machine.	SPA910			
12	Sloping Tops to wall cabinets				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
13	Fillers to the walls				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.

Dirty Utility (theatre style)

A Dirty Utility room that is adjacent to a theatre is a through room for the removal of waste from the theatre area. This room may also accommodate some cleaning activities.
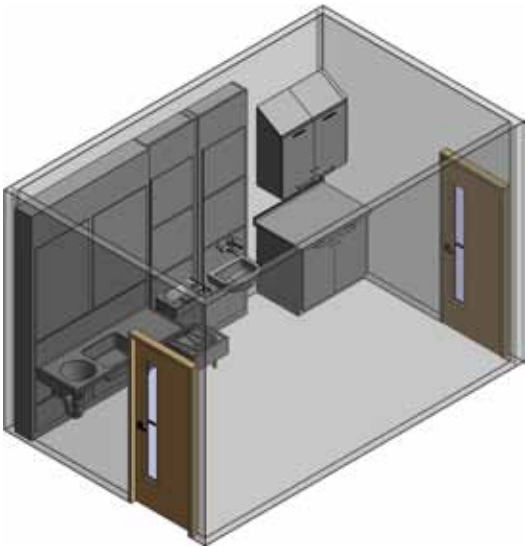

Stirling®
MEDICAL and SCIENTIFIC

T: 020 8699 8993

E: enquiries@stirlingmedical.org

www.stirlingmedical.org
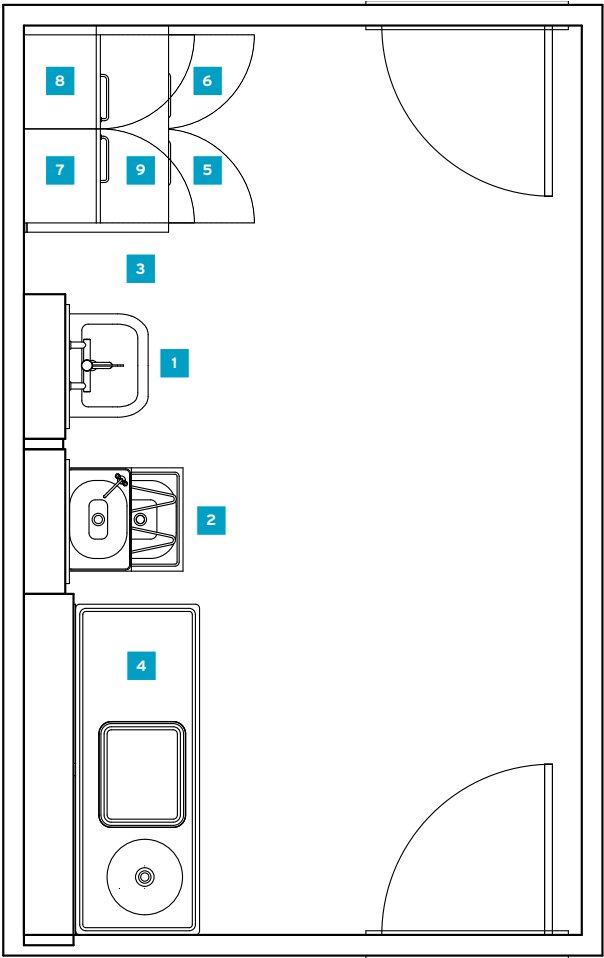

THE002 - plan

THE002 - 1

Key design considerations:

- Keep all services hidden in accessible IPS panel systems
- Consider the flow through the room (eg. left is the dirty side and right is the clean side)
- Select cabinet type to suit with items to be stored (for example, large bulky items may require a large capacity double base or wall cabinet)
- Consider using Systeméd S200 marine ply core cabinets if positioned near the slop hopper or sink for extra durability
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

	Description	ADB Code	Product Code	Cascass DS1 Code	Design Notes
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		IPS handwash station is positioned on the clean side of the room. Janitorial combined unit is an option depending on the activities of the room.
	IPS Handwash Station, VIRSEAL™ Ultimate Full height 700W 200D. 4no Access Panels.	IPS1000	VIRU/28/07		
	TAP, HTM Compliant Single Lever Thermostatic Clinical Mixer Tap. IPS Duct Panel Mounting Type.	TAP4555	SF424555		
2	SINK, Stainless Steel. Janitorial Combined Unit: Freestanding with legs. Includes monobloc mixer tap, waste & hinged grating. 500W 570D 880H.	JAN1000	SA700043		
3	Space for bins.				
4	IPS Handwash Station, VIRSEAL™ Ultimate Full height 1700W 250D. 5no Access Panels. Suitable for Slop Hopper mounting.	IPS1050	VIRU/28/16		IPS and slop hopper unit can be positioned up against the side wall to minimise gaps for infection prevention.
	SINK, Stainless Steel. DUHS Hospital Combined Disposal Unit Slop Hopper. HTM Compliant. Flushing Rim. R/H Drainer. Back inlet for IPS Duct Panel mounting. No Tap Holes. Sink 500W 400D 200H, no overflow. Add Support Bracket pair SA26253 or add Support Legs SA26524. 1600W 600D 900H.	DUH2182	SA22018R		
5	STORAGE UNIT, Modular, Base Cabinet c/w 1 x 100mm Polycarbonate Tray, 3 x 100mm ABS Baskets, 1 x 200mm ABS Basket and Label Holders. L/H Door, Lock. HTM71.	MSC1141	CE114111	B40/LH	Base HTM71 cabinet type should be selected according to the items stored in the units. Suitable types: CE11, 12, 13.
6	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. R/H Door, Lock. HTM71.	MSC1342	CE134112	B40/RH	
7	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. L/H Door, Lock. HTM71.	MSC3541	CE354311	W40/30(760)	Wall cabinets with shelves.
8	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. R/H Door, Lock. HTM71.	MSC3542	CE354312	W40/30(760)	
9	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn.	WKT0030	WKT30		Worktop to be 700mm deep. SGL Solid Grade Laminate type worktops are impervoius to moisture ingress, therefore reducing infection issues.
10	Sloping Tops to wall cabinets.				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
11	Fillers to the walls.				Close all gaps between cabinetry and a wall by using fillers - this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.

Theatre Store Room

Every set of theatres needs a combined storage hub as a central store. This is an important area that requires high density clean storage for anything from implants to syringes.

Stirling®
MEDICAL and SCIENTIFIC

T: 020 8699 8993

E: enquiries@stirlingmedical.org

www.stirlingmedical.org
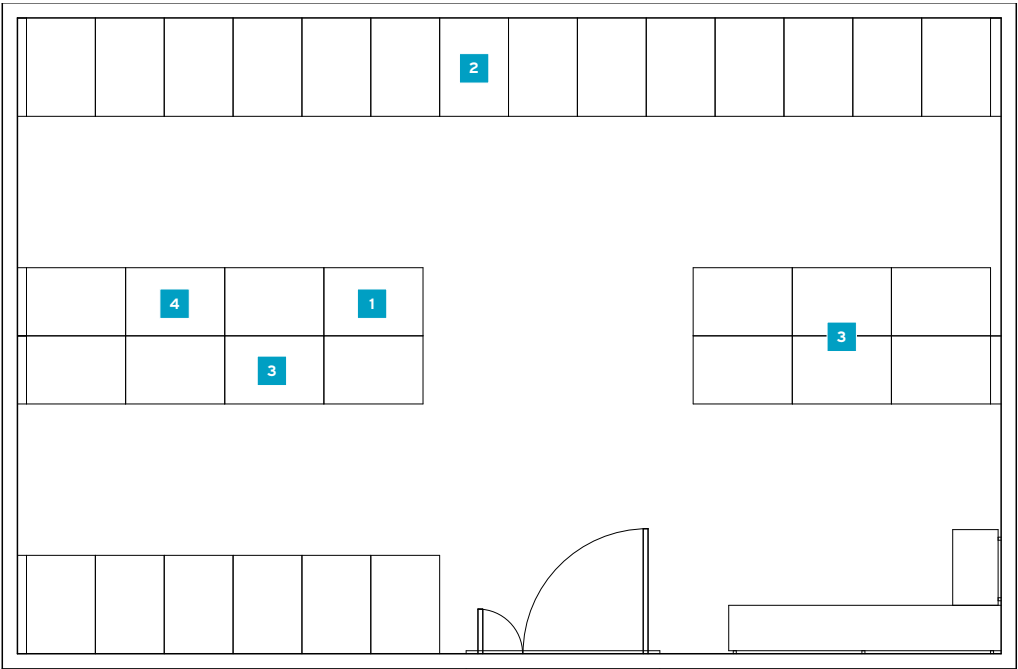

THE003 - plan
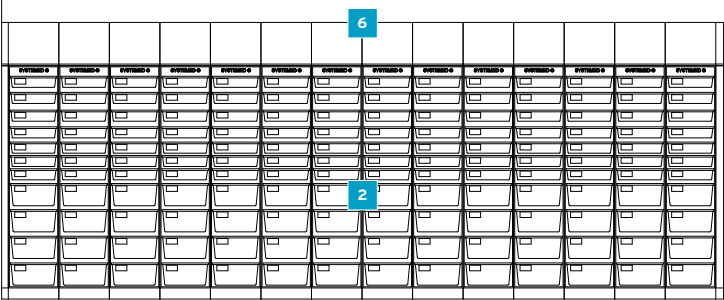

THE003 - 2
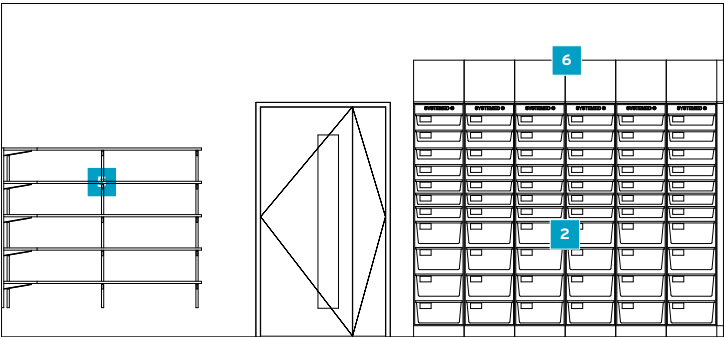

THE003 - 4
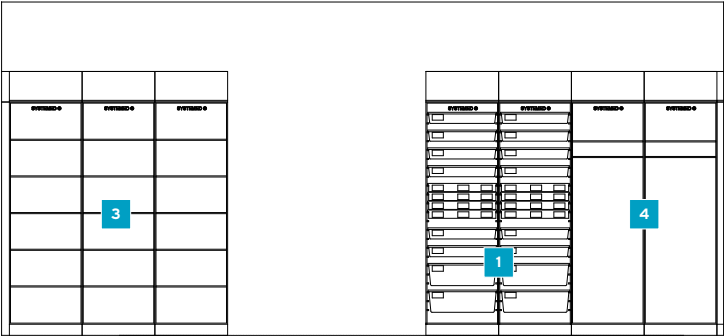

THE003 - 5
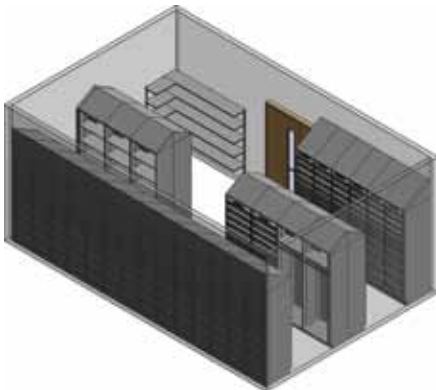

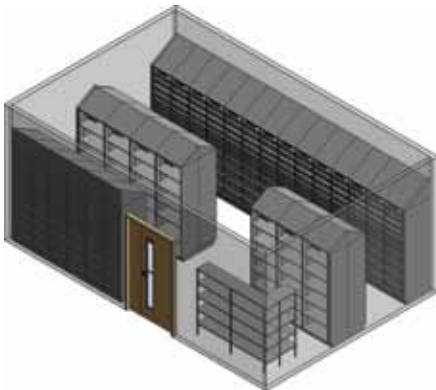

Key design considerations:

- The quantity and type of Theatres that the Store Room serves will impact on the size of the room and the storage provision required
- Consider if catheter storage is required
- Consider correct HTM71 size module to suit available space (eg. 455mm and/or 655mm wide facing units)
- Systeméd trays and baskets will help with either A-Z storage or category sorting
- A mixture of CE04 shelf type storage and trays and baskets should be used to suit stock (Choose CE01 type for small items through to CE10 type for sutures)
- Consider if 2 doorways are required – for goods in and for access from theatres
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape
- Good clear labelling will be is essential to help the room function properly. Use large A4 labels (500099) for cabinet identification and smaller labelling for individual accessories

	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	STORAGE UNIT, Modular, Tall Open Cabinet c/w 4 x 100mm Polycarbonate Trays, 6 x 100mm ABS Baskets, 2 x 200mm ABS Baskets and Label Holders. HTM71.	MSC0160	CE016100	T60/O	Tall Systeméd open fronted cabinets with a range of sizes of tray and basket inserts to suit many sizes of items.
2	STORAGE UNIT, Modular, Tall Open Cabinet c/w 7 x 100mm ABS Baskets, 4 x 200mm ABS Baskets and Label Holders. HTM71.	MSC0240	CE026100	T60/O	
3	STORAGE UNIT, Modular, Tall Open Cabinet c/w 5 x Shelves. HTM71.	MSC0460	CE046100	T60/O	Tall Systeméd shelf type storage for boxed or bulky items. Note: these cabinets can be upgraded at any time to accept trays and baskets.
4	STORAGE UNIT, Modular, Tall Open Cabinet c/w Telescopic Catheter Frame and 1 x Shelf. HTM71.	MSC0760	CE076100	T60/O	Catheter storage for hanging type packaging. Other inserts available for boxed type cathethers (consult Stirling Medical Ltd for options available).
5	SHELF 5-Tier, 300D. Includes Stirling Spur Uprights & Brackets. Length as plan.	SHE5000			Open shelving for bulky items such as sharps bins etc.
6	Sloping Tops to cabinets				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.

A4 Notice Holder – Item: 500099

Shelf Bin front (push on) – 400mm facing: Item 101202

Ward Reception/Nurse Base (2-person)

The ward reception or nurse base should be welcoming for both patients and visiting relatives. It is normally a hub of activity on a ward or department. Careful planning and colour schemes can make this area functional and aesthetically attractive.
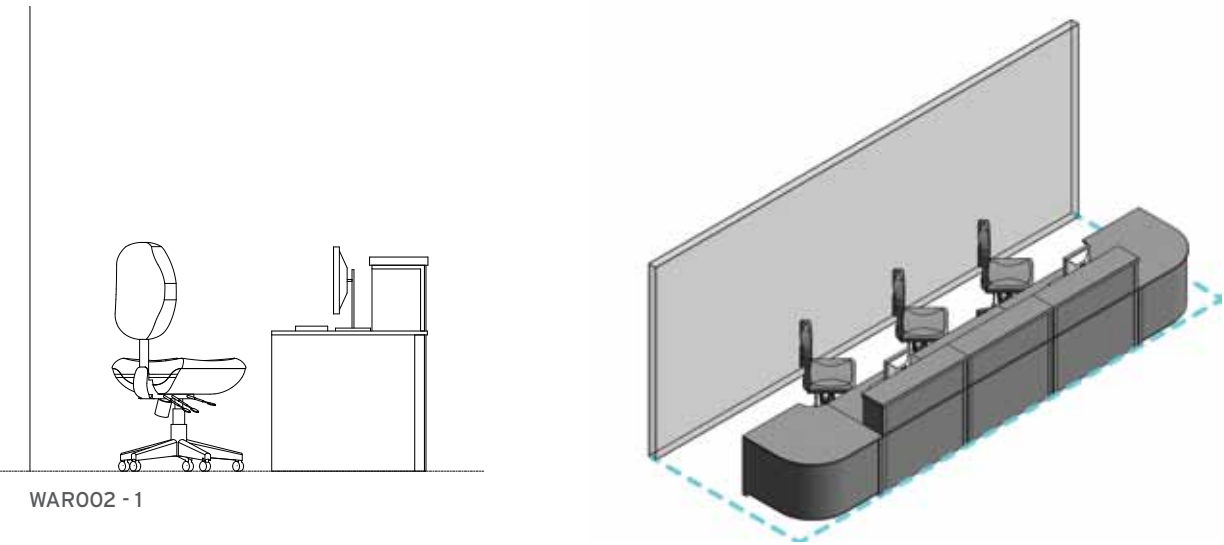

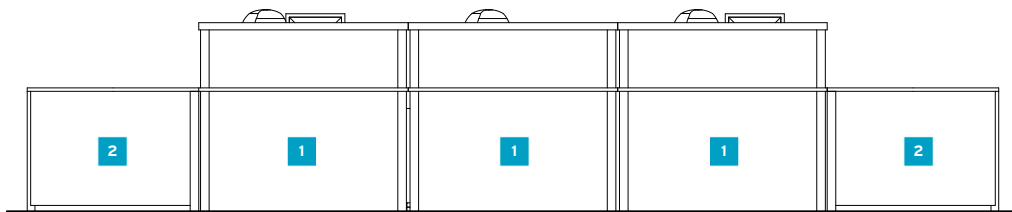

Stirling®
MEDICAL and SCIENTIFIC
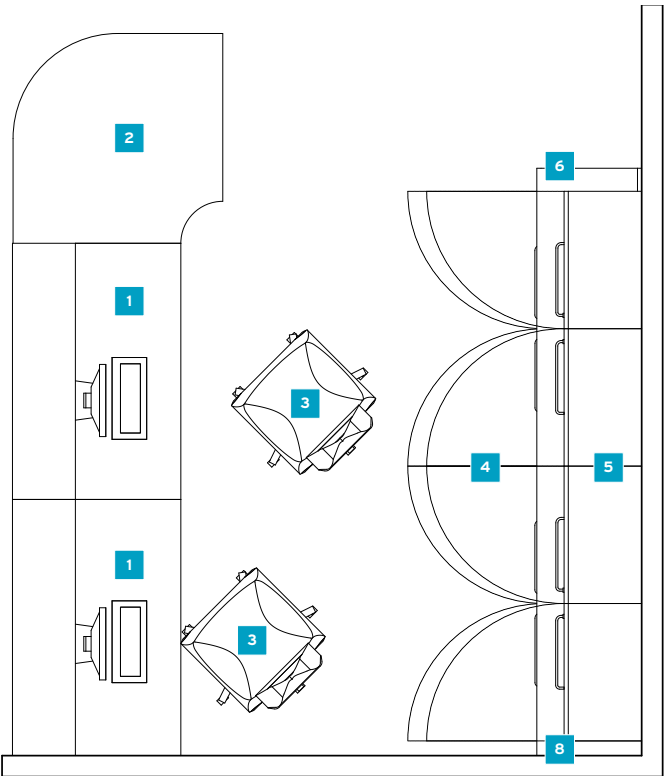

WAR001 - plan
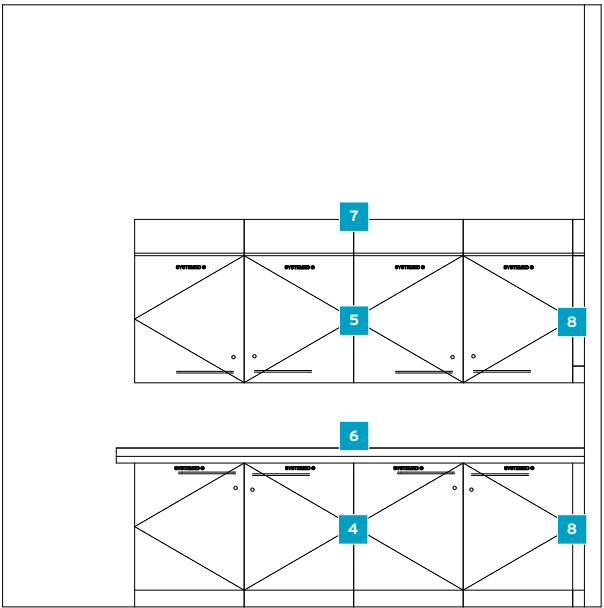

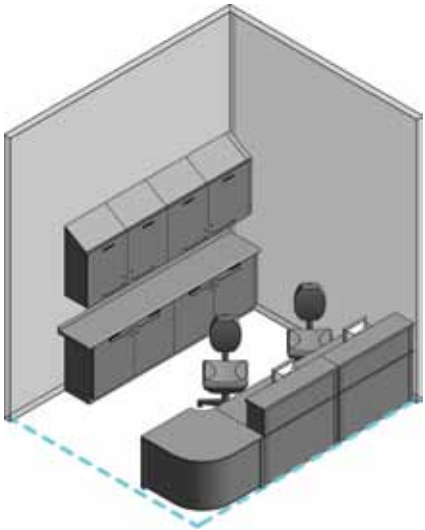

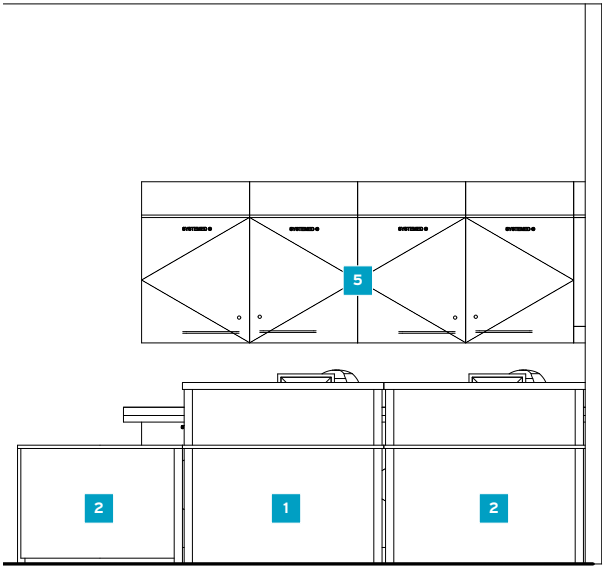

WAR001 - 3

WAR001 - 5

Key design considerations:

- Consider the number of staff using this area and the number of PC terminals required
- Consider a further 'touch down' point for updating notes etc. to reduce the activities in this area
- Consider DDA requirements for access for wheelchair users
- Wall cabinet storage behind the desk is preferred over open shelving as it appears neater and more organised
- Consider colours and wood effect options to create a pleasant working environment and welcoming atmosphere

	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	RECEPTION DESK, Modular. Worksurface and higher writing top, incl modesty panels. 1200L mm.	COU2012	COU2012		Modular unit: Desktop height 720mm, Writing Top height: 1100mm. Lengths available: 800, 1000, 1200, 1400, 1600, 1800mm long.
2	RECEPTION DESK, Modular. Corner Unit. Worksurface and modesty panel. 1000L mm.	COU2101	COU2101		Modular corner unit with no writing top to help visability and for DDA compliancy. Consider a knee recess for wheelchair user.
3	CHAIR, Operator Type, Future™ Tiverton T551, High Back, 5 Star base with Castors. No Arms.	CHA0300	CHA1001		Operator chair.
4	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. L/H Door, Lock. HTM71.	MSC1361	CE136111		Systeméd HTM71 modular cabinets - these can be upgraded with Systeméd inserts at any time.
4	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. R/H Door, Lock. HTM71.	MSC1362	CE136112	B60/LH	
5	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. L/H Door, Lock. HTM71.	MSC4761	CE476311	B60/RH	Wall cabinets. Carcass depth of 350mm allows files and folders to be stored.
5	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. R/H Door, Lock. HTM71.	MSC4762	CE476312	W60/30(760)/LH	
6	WORKTOP, 40mm Bullnose High Pressure Laminate. Rear Lay-on Upstand. Size as drawn.	WKT0010	WKT10	W60/30(760)/RH	Consider WKT30 as an alternative for durability.
7	Sloping Tops to wall cabinets.				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
8	Fillers to the walls.				Close all gaps between cabinetry and a wall by using fillers - this increases infection prevention. Leave at least 50mm between any cabinet and a wall to allow the door to open fully.

Ward Reception/Nurse Base (3-person)

The ward reception or nurse base should be welcoming for both patients and visiting relatives. This layout is suited to a corridor style reception and has no storage. It is normally a hub of activity on a ward or department. Careful planning and colour schemes can make this area functional and aesthetically attractive.

4-Bed Ward

The typical hospital ward is where patients spend long hours recovering from treatment or illness. While clinical cleanliness is of utmost importance, recent studies have proven that aesthetics, privacy and dignity all have a major part in recovery times and readmission rates. The focus on designing new ward areas is often now on enhancing the 'patient experience'.

Stirling®
MEDICAL and SCIENTIFIC

T: 020 8699 8993

E: enquiries@stirlingmedical.org

www.stirlingmedical.org
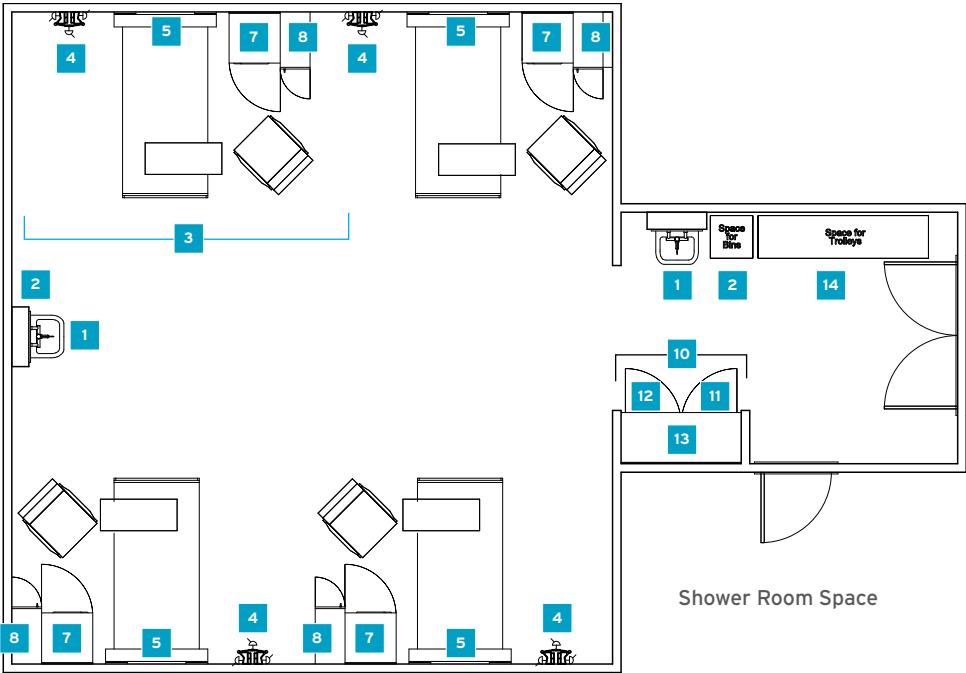

WAR003 - plan
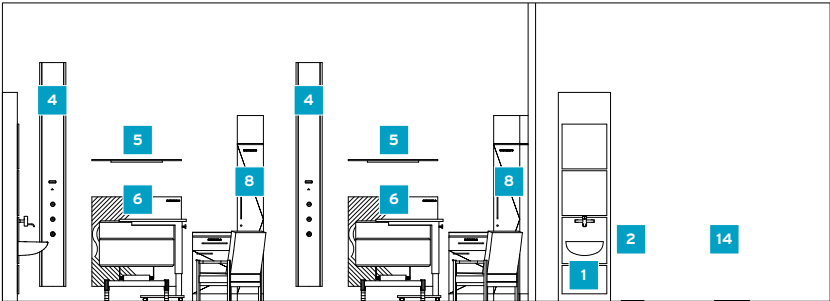

WAR003 - 2

WAR003 - 4

WAR003 - 3

Shower Room Space
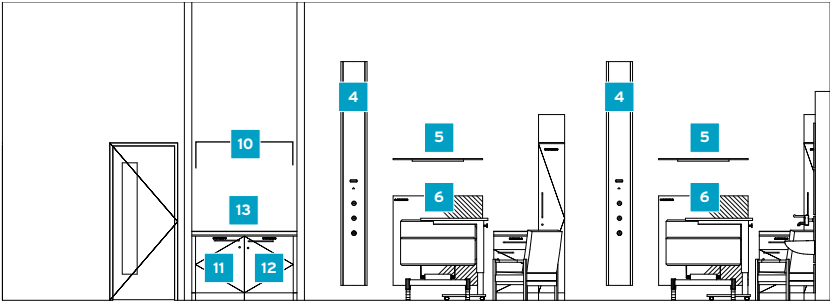

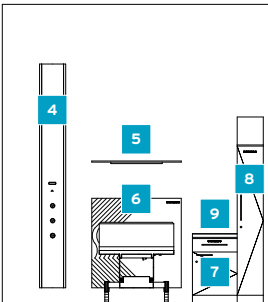

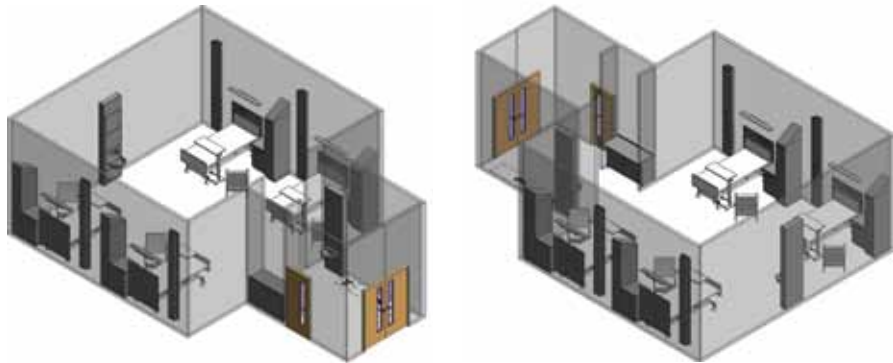

Key design considerations:

- The Hilton Medical supply unit effectively keeps services out of sight, creating a calmer atmosphere. Accessories can be kept out of sight until required – simply clip onto the unit
- Bedside cabinetry can include hanging space and personal storage (dignity) while also maintaining an aspect of privacy
- Calming imagery or graphics can be incorporated into the BED4000 bed buffer
- Lighting is important: the LIG1121 LED light unit can include a daylight controller to wake up slowly with white sunlight and rest slowly in the evening with a warmer sunset. Reading lighting is important
- Consider a small touchdown area for nurses to update records etc
- Consider space to store trolleys and equipment out of the way

	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	BASIN. Clinical. HTM Compliant 500W 400D, integral back outlet, no overflow, no tapholes. Includes IPS mounting fixings & resealing waste bottle trap.	BAS0500	SC00042		Handwash station positioned near the preparation space.
	TAP, HTM Compliant Single Lever Thermostatic Clinical Mixer Tap. IPS Duct Panel Mounting Type.	TAP4555	SF424555		
	IPS Handwash Station, VIRSEAL™ Ultimate Full height 700W 200D. 4no Access Panels.	IPS1000	VIRU/28/07		
2	Space for bins.				
3	**Patient Bed Area**				
4	BEDHEAD SERVICES, Hilton 350 Vertical. Includes 7x Switched Socket, 3 x Medigas Outlet, Nursecall & Emergency System, 2x Data Socket, 2x Light Switch. Height as drawn, 350W.	BED1350	HIL350/15		Vertical services unit designed to keep services out of sight but fully functional. Bolt-on accessories such as IV fluid hooks and monitors can be clipped onto this unit.
5	LUMINAIRE, Bedhead. LED, dimmable, up (general) and down (reading) lights. Length as plan.	LIG1121	S121		Minimalistic lighting unit utilising LED technology
6	BEDHEAD BUFFER, Bed and wall protection with graphics (to choice). 1200H x 1200W.	BED4000	BED4000		Bed buffer panel. Create a relaxing environment by adding imagery or graphic to the bed area – encapsulated into the buffer panel.
7	CUPBOARD, SR03 Drawerline Base Cabinet c/w 1 x Shelf. R/H Door.	CUP0639	B6/DW1R	B6/DW1R	Patient storage with drawer.
8	STORAGE UNIT, Modular, Tall Cabinet c/w 5 x Shelves. Solid Door, Lock. HTM71.	MSC1050	T30/RH	T30/RH	Tall cabinet creates some patient privacy and provides storage for clothes and personal items. Consider removing 3 shelves and including a hanging rail. Consider a digital number lock with a nurse master code.
9	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn.	WKT0030	WKT30		Solid surface type worktops are highly resistant to moisture ingress and therefore infection.
10	**Nurse Point**				
11	STORAGE UNIT, Modular, Base Cabinet c/w 1 x 100mm Polycarbonate Tray, 3 x 100mm ABS Baskets, 1 x 200mm ABS Basket and Label Holders. L/H Door, Lock. HTM71.	MSC1161	CE116111	B60/LH	Systeméd HTM71 unit with trays and baskets to store consumables. Lockable as standard.
12	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. R/H Door, Lock. HTM71.	MSC1362	CE136112	B60/RH	Systeméd HTM71 shelf unit can be upgraded to accept Systeméd inserts. Lockable as standard.
13	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn.	WKT0030	WKT30		WKT30 Solid grade laminate type worktops are highly resistant to moisture ingress and with seamless joints and upstands can provide superior infection prevention qualities.
14	Space for trolleys.				

Cleaners' Room

The Cleaners Room is usually designed to incorporate the Hospital Trusts' cleaning procedures and is a necessary area in every department and ward.

Stirling®
MEDICAL and SCIENTIFIC

WAR004 - plan
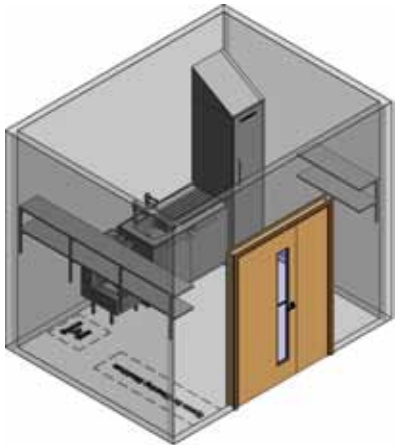

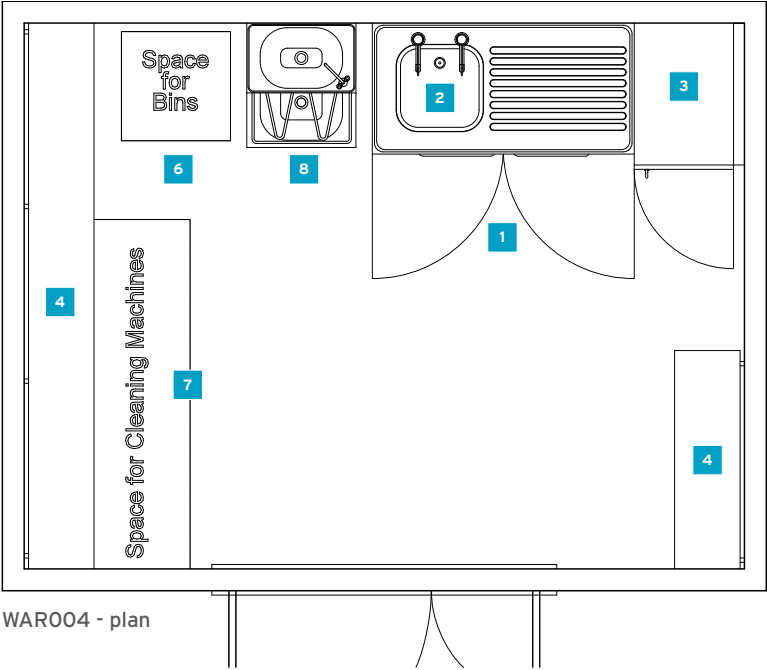

## Key design considerations:

- Type of equipment stored in this room will dictate the size and layout (eg: floor cleaning machines etc)
- Consider a COSSH cabinet for cleaning chemicals
- Tall CEO4 type storage can be used to store wipes and consumables
- Combined janitorial unit serves as a bucket sink – simple to install and maintain
- Use Systeméd S200 range marine ply core for sink base cabinet carcase

	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	CUPBOARD, SR02 Type Base Sink Base Cabinet c/w 1 x Shelf and Removable Back Panel. Double Doors.	CUP1224	B12/SB/DD	B12/SB/DD	Cabinet from S200 Marine Ply core for resistance to moisture. Removable panel for access to services.
2	SINK, Stainless Steel. STA. HTM64 Lay-on Sink Bowl 400W 400D 180H R/H Drainer, No overflow. 2 Tapholes. 1200W 600D. Add Support Bracket pair SA26253 or add Support Legs SA26525 if no base cabinet.	SNS1202	SA524412		Stainless steel sink and taps mounted on base cabinet.
	TAP, HTM Compliant Deck Mounted Long Lever Action High Neck Piller Mounted Tap Pair - Hot & Cold set. Thermostatic.	TAP4313	SF404311/12		
3	STORAGE UNIT, Modular, Tall Cabinet c/w 5 x Shelves. R/H Door, Lock. HTM71.	MSC0442	CE044112	T40/RH	Tall unit for consumables. Consider removing 4 shelves if tall items are being stored inside.
4	SHELF 2-Tier, 300D. Includes Stirling Spur Uprights & Brackets. Length as plan.	SHE2000	SHE1002		Consider if stainless steel shelves are required if wet items are being stored.
5	SINK, Stainless Steel. Janitorial Combined Unit: Freestanding with legs. Includes monobloc mixer tap, waste & hinged grating. 500W 570D 880H.	JAN1000	SA700043		One-piece janitorial unit with maintenance access panels.
6	Space for bins	SPA900			
7	Space for Cleaning Machines	SPA911

WAR005 - plan

WAR005 - 2
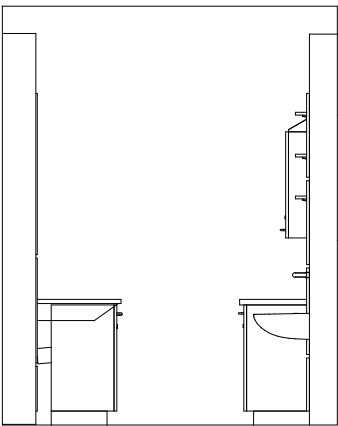

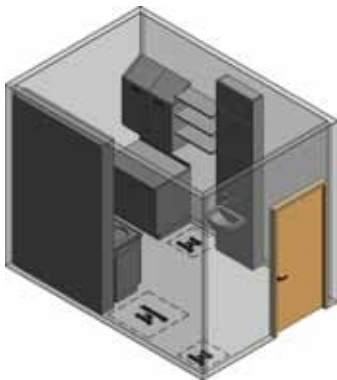

WAR005 - 3

WAR005 - 4

Key design considerations:

- Normally a macerator is installed in this room. Allow enough space for pulp disposables
- Have a dirty/waste side and a clean side to the room
- The activity should flow around the room – first point is disposal working around to final handwashing before exit
- Use Systeméd S200 range marine ply core cabinets for durability (high likelihood of water splashes)
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	Space for bins or pulp boxes	SPA900			
2	Space for Macerator	SPA912			
	Slop Hopper with storage below				
3	IPS Handwash Station, VIRSEAL™ Ultimate Full height 1700W 250D. 5no Access Panels. Suitable for Slop Hopper & Scrub mounting.	IPS1050	VIRU/28/16		IPS for concealing pipework and cistern.
4	SINK, Stainless Steel. DUHS Hospital Combined Disposal Unit Slop Hopper. HTM Compliant. Flushing Rim. R/H Drainer. Back inlet for IPS Duct Panel mounting. No Tap Holes. Sink 500W 400D 200H, no overflow. Add Support Bracket pair SA26253 or add Support Legs SA26524 if cabinets below are removed. 1600W 600D 900H.	DUH2182	SA22018R		Combined hopper and sink mounted on base cabinets.
5	STORAGE UNIT, Modular, Base Cabinet c/w 1 x Shelf. L/H Door, Lock. HTM71.	MSC1351	CE135111	B40/40/LH	Base cabinets for storage and to support the sink.

Ward Store Room

Most wards require a room for the storage of bulky boxes, accessories and equipment.
A mixture of HTM71 storage modules and shelving will provide efficient storage.
Typical size 10m^2.

Stirling
MEDICAL and SCIENTIFIC
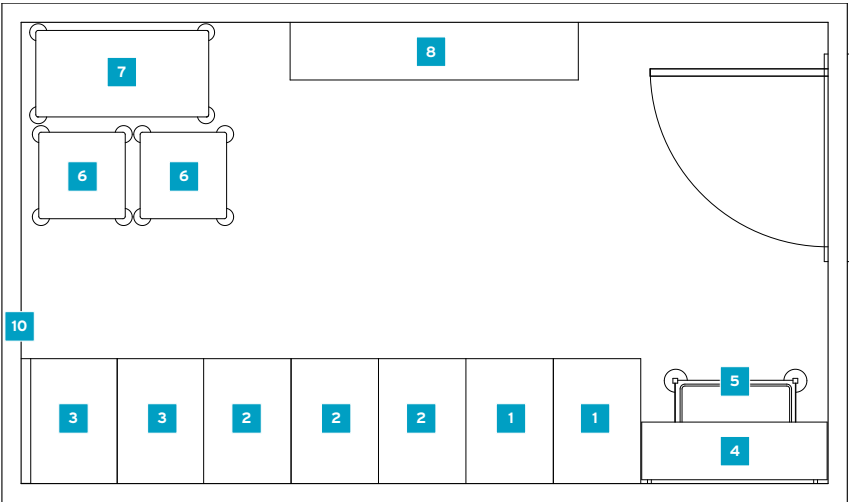

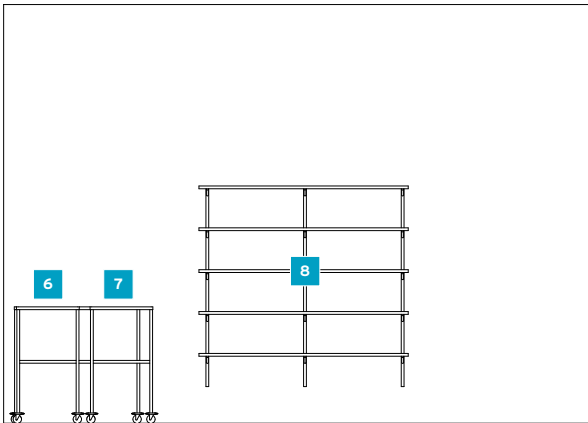

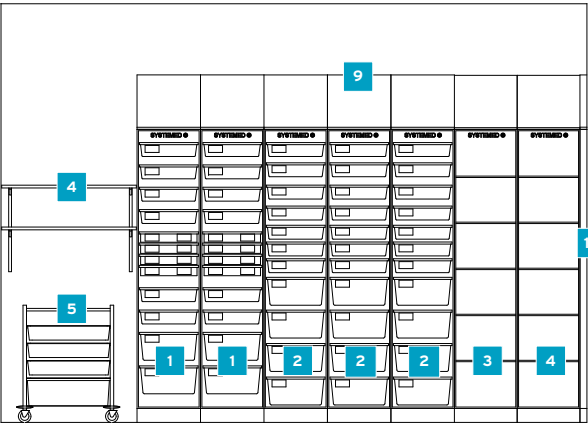

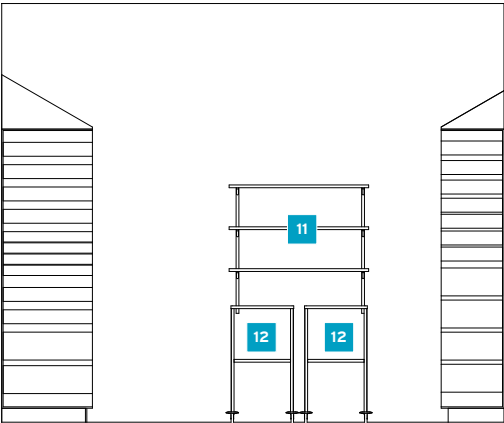

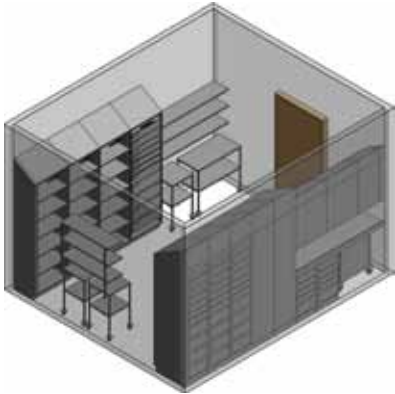

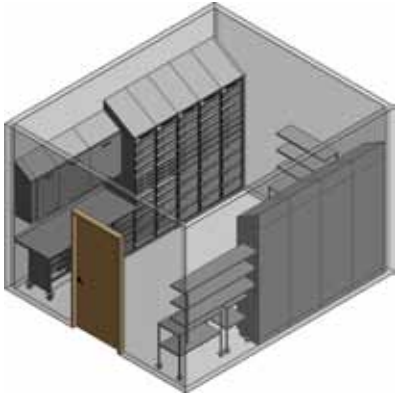

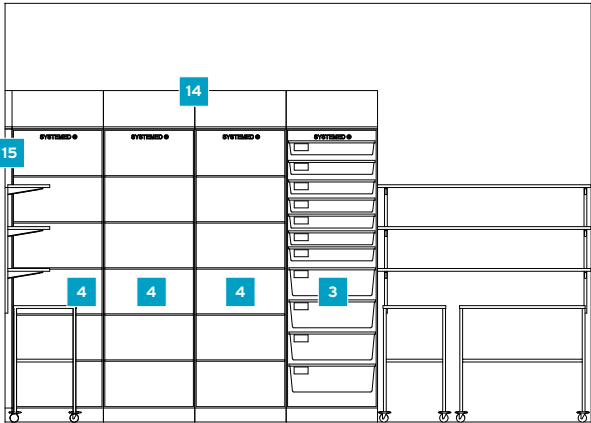

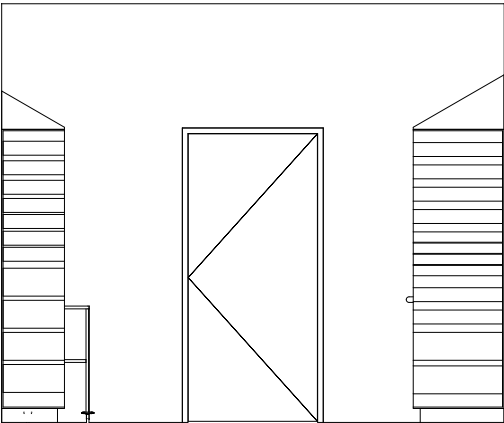

WAR006 - plan
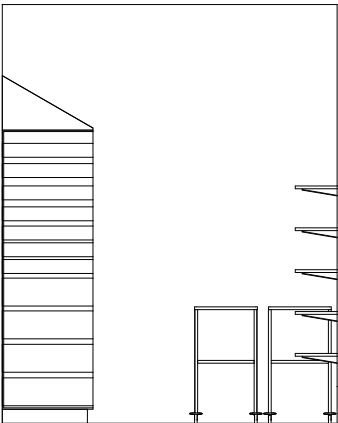

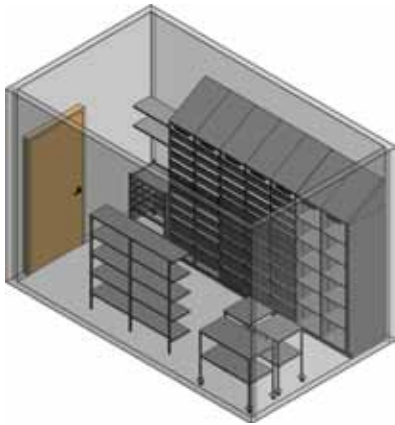

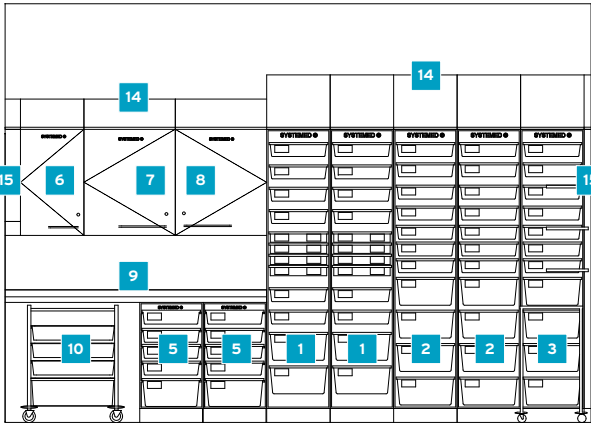

WAR006 - 1

WAR006 - 2

WAR006 - 4

Key design considerations:

- Tall Systeméd cabinets as shown provides high density storage. Trays and baskets can be moved between cabinets and trolleys
- Consider some shelves for recharging equipment
- Cabinets doors are not normally required to this room but can be added if necessary
- Choose between HTM71 T40 and T60 storage module sizes to suit room shape
- HTM71 Cabinets are either 455mm or 655mm wide facing. Orientate the cabinets to suit the room layout and shape

|	Description	ADB Code	Product Code	Carcass DS1 Code	Design Notes
1	STORAGE UNIT, Modular, Tall Open Cabinet c/w 4 x 100mm Polycarbonate Trays, 6 x 100mm ABS Baskets, 2 x 200mm ABS Baskets and Label Holders. HTM71	MSC0140	CE014100	T40/O	Tall Systeméd HTM71 cabinets gives storage flexibility: move trays and baskets between cabinets and Systeméd HTM71 trolleys. Shelf type cabinets can be upgraded at any time to accept tray inserts. Usually no doors in this room.
2	STORAGE UNIT, Modular, Tall Open Cabinet c/w 7 x 100mm ABS Baskets, 4 x 200mm ABS Baskets and Label Holders. HTM71.	MSC0240	CE024100	T40/O	
3	STORAGE UNIT, Modular, Tall Open Cabinet c/w 5 x Shelves. HTM71.	MSC0440	CE044100	T40/O	
4	SHELF 2-Tier, 300D. Includes Stirling Spur Uprights & Brackets. Length as plan.	SHE2000			Shelves can be used for charging small equipment.
5	TROLLEY, Systeméd One Section Multipurpose. HTM71 Compliant. Includes 1no. ABS top, 3no.100mm ABS baskets, 1no. 200mm ABS baskets, 4no. Label Holders. Open Front, Closed sides.	TRO3000			Systeméd HTM71 trolley: trays can be interchanged with cabinet trays.
6	TROLLEY, Dressing/Instrument Stainless Steel - Buffered, 2 Levels 450W 450D 840H.	TRO4000			Parking place for trolleys – consider size and quantity of trolleys.
7	TROLLEY, Dressing/Instrument Stainless Steel - Buffered, 2 Levels 900W 450D 840H.	TRO4500			
8	SHELF 5-Tier, 300D. Includes Stirling Spur Uprights & Brackets. Length as plan.	SHE5000			Shelf storage for boxes and bulky items, sharps bins etc.
9	Sloping Tops to wall cabinets				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
10	Fillers to the walls				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Suggested size: 50mm.

Ward Store Room (with worksurface)

Most wards require a room for the storage of bulky boxes and equipment such as trolleys. This room has a worksurface and has more storage than room WAR006. Typical size: 15m^2.

12	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. L/H Door, Lock. HTM71.	MSC3541	CE354311	W40/30(760)/IH	Lockable wall storage.
13	STORAGE UNIT, Modular, Wall Mounted Cabinet c/w 2 x Shelves. R/H Door, Lock. HTM71.	MSC3542	CE354312	W40/30(760)/RH	
14	STORAGE UNIT, Wall Mounted Drugs Cabinet c/w 2 x Shelves, C.D.Safe and High Security Lock. L/H Door. HTM71.	STF7561	DR756311	W60/30(760)LH	Drug Cabinet with controlled drug inner safe. With the outer cabinet door closed, there is no external indication that drugs are stored inside.
15	WORKTOP, Solid Grade Laminate, rear Lay-on Upstand. 16mm thick. Size as drawn. Stirling medical type WKT30.	WKT0030	WKT30		Solid grade laminate worktops are impervious to moisture penetration, more durable and provide users with improved infection prevention qualities.
16	SHELF, Clinical, single tier. Aluminium Easyrail™ support type system. White MFC. 300D Length as drawn.	SHE0001	ER1000		Clinical easyrail shelves have no voids or holes for infection ingress. Usefull for small equipment on charge.
17	TROLLEY, Systeméd One Section Multipurpose. HTM71 Compliant. Includes 1no. ABS top, 3no.100mm ABS baskets, 1no. 200mm ABS baskets, 4no. Label Holders. Open Front, Closed sides.	TRO3000	306100ACL		Systeméd HTM71 trolley: trays can be interchanged with cabinet trays.
18	Sloping Tops to wall cabinets				Prevents items being stored on top of the cabinets and creates a visible surface for infection prevention.
19	Fillers to the walls				Close all gaps between cabinetry and a wall by using fillers – this increases infection prevention. Suggested size: 50mm. This also allows doors to open fully so that trays can slide out correctly.
20	Space for fridge				Allow approx 650mm width for fridge. Check fridge height.

Stirling®
MEDICAL and SCIENTIFIC

Profile	Type	Core Description	Specification
	WKT10	HPL/Chip	40mm full radius bullnose front/rear 50mm lay-on upstand/HTM71
	WKT15	HPL/Chip	40mm full radius bullnose front/rear 50mm moulded upstand/HTM71
	WKT20	HPL/MDF	55mm full radius bullnose front/rear 50mm lay-on upstand/HTM63
	WKT25	HPL/MDF	55mm full radius bullnose front/rear 50mm moulded upstand/HTM63
	WKT30	SGL	16mm thick solid grade laminate, finished front edge/50mm rear lay-on upstand
	WKT35	SGL	19mm thick solid grade laminate, finished front edge/50mm rear lay-on upstand
	WKT40	Solid Surface	40mm solid surface with bullnose front/no upstand
	WKT45	Solid Surface	40mm solid surface with bullnose front/50mm moulded upstand
	WKT46	Solid Surface	40mm solid surface with waterfall front edge/no upstand
	WKT47	Solid Surface	40mm solid surface with waterfall front edge/50mm moulded upstand. For tops with a larger upstand add 'SP' to code and specify height.
	WKT50	MDF/Marmoleum/ Hardwood	Marmoleum faced 25mm MDF worktop with real wood front nosing and rear upstand to specification
	WKT60	Stainless Steel	Bullnose front/50mm welded upstand with timber subframe
	WKT70	Granite	25mm granite with finished front edge/no upstand
	WKT75	Granite	25mm granite with finished edge/50mm lay-on upstand
