

Introducing the NEW **systeméd**[®] MODULAR STORAGE

XSTOR Range!

Designed to provide a quick and effective solution for the storage of all clinical stock without the interruptions associated with the installation of fitted furniture.

The Systeméd XSTOR range includes both tall and base cabinets in popular HTM71 modular sizes enabling you to get maximum storage benefit in limited available space.

Options include cabinets with Systeméd support wall system only where hospitals have surplus trays already available to use. Available on an express 3-4 weeks lead time from order in standard Clinical light grey colour.

Proven Systeméd quality and longevity

HTM71 efficient storage modules
