

# The Safe Storage of Medicines and Drugs in Healthcare Facilities

“ A secure cupboard is of no avail if the key is indiscriminately available, if correct records are not kept, if it is possible to attempt forcible entry at leisure, or if it is easy to remove the unopened cupboard in order to gain entry later. ”

BS2881

Our NEW CPD for 2024 includes

Latest regulations and guidance:

HBN 14-02 Medicines storage in clinical areas

Patient safety notices
